IMPORTANT!

Read “Nextel Terms and Conditions of Service” on page 168 and “Safety and General Information” on page 174 before using your *i85s* phone.

Introduction

Welcome to Nextel®

Thank you for choosing Nextel as your wireless communications provider. Your *i85s* phone enables you to enjoy clear connections through Nextel's All-Digital National Network. In addition, with Nextel WorldwideSM Service, you can use your *i85s* phone to roam internationally in select cities using other iDEN[®] networks.

Nextel gives you more ways than anyone to communicate with everyone.SM

Your *i85s* phone offers many innovative features:

- **Voice Activated Dialing** – Your *i85s* phone offers state-of-the-art Voice Activated Dialing.
- **Speakerphone** – You can enjoy hands-free communication at the touch of a button. And Speakerphone is especially great for conference calls.
- **Phonebook** – Your consolidated Phonebook holds up to 250 entries and allows you to store multiple contact numbers for each person, offering you various ways to communicate with your business and personal contacts.
- **SIM Card** – Your phone's SIM card holds all entries stored in your Phonebook. In addition, you have a PIN (Personal Identification Number) to keep your information safe and secure.
- **Datebook** – Schedule and keep track of appointments using your phone's Datebook feature.
- **Messages** – The Message Center allows you to manage and access your Voice Mail, Text Messages and Two-Way Messages all from the same inbox.
- **Direct Connect[®]** – With Nextel's Direct Connect feature, you can use your phone as a two-way radio to communicate directly with business and personal contacts at a fraction of the cost of cellular calls.
- **Nextel Wireless Web** – Using the Net feature with the built-in microbrowser, you can access Nextel Mobile Messaging, Nextel Mobile Office, Nextel Industry Solutions, and other wireless data products and Internet applications to quickly access the information you need to get business done.
- **J2METM** – With the Java Apps feature, you can choose from the many Java programs developed for Nextel. Either download Java applications directly from the Internet, or try one of the pre-loaded applications. You can select which JavaTM applications will best help you get business done.

- **Customization** – Use the Settings, Styles and Shortcuts features to customize your *i85s* phone to meet your individual needs. Personalize your main menu order, designate unique ring styles, create a set of behaviors for your phone to use in certain situations such as meetings or in the car, and more.

For more information on these and other features of the *i85s* phone, review this User's Guide. There is a Table of Contents in the front of the guide and an Index in the back of the guide to assist you in finding the specific information you want.

Enjoy using your *i85s* phone!

Customer Support

For domestic customer care issues, including billing issues, general service needs, or to order additional services, call Nextel Customer Care at 1-800-639-6111, or dial 611 from your *i85s* phone.

To complement the *i85s* phone and Nextel Worldwide Service, Nextel has also launched International Roaming Customer Care support. When traveling outside of the U.S. and Canada, call +1 (201) 531-5202 for your Customer Care Service needs. This Customer Care number will be toll-free from your Nextel handset both domestically and internationally.

For more information about Nextel or to view this guide on our Web site, visit us on nextel.com.

International and domestic coverage, rates and other information is also available on nextel.com.

Ordering Information

Nextel Business Networks® allows you to communicate with individuals outside as well as inside your company. These Networks link Nextel customers in similar industries or geographies. So, if you need to reach a client, vendor, or contractor instantly, work smarter by joining the Nextel Business Networks. Call 1-888-NEXTEL2 (1-888-639-8352).

Various accessories are available for use with your *i85s* phone, including a Hands-Free Car Kit, Leather Carry Case, Vehicle Power Adapter and International power plug adapters. To order accessories, log on to our Web site at nextel.com, call Nextel NextdaySM Accessories at 1-800-914-3240 or contact your Nextel Authorized Retailer or Authorized Representative.

Call Nextel Customer Care at 1-800-639-6111 or 611 from your *i85s* phone phone to order any of the services discussed in this guide, including Nextel Wireless Web, Nextel Direct Connect, Additional Phone Services, Voice Mail, Messaging and much more!

For information on Direct ProtectSM insurance protection for your *i85s* phone, call 1-888-352-9182 or contact your Nextel Authorized Representative.

Visit us at nextel.com to learn more about Nextel products and services!

Driving Safety Tips

Safety — Your most important call. The Wireless Industry reminds you to use your phone safely when driving.

- 1. Get to know your wireless phone and its features such as speed dial and redial.** Carefully read your instruction manual and learn to take advantage of valuable features most phones offer, including automatic redial and memory. Also, work to memorize the phone keypad so you can use the speed dial function without taking your attention off the road.
- 2. When available, use a hands free device.** A number of hands free wireless phone accessories are readily available today. Whether you choose an installed mounted device for your wireless phone or a speaker phone accessory, take advantage of these devices if available to you.
- 3. Position your wireless phone within easy reach.** Make sure you place your wireless phone within easy reach and where you can grab it without removing your eyes from the road. If you get an incoming call at an inconvenient time, if possible, let your voice mail answer it for you.
- 4. Suspend conversations during hazardous driving conditions or situations.** Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions. Rain, sleet, snow and ice can be hazardous, but so is heavy traffic. As a driver, your first responsibility is to pay attention to the road.
- 5. Do not take notes or look up phone numbers while driving.** If you are reading an address book or business card or writing a “to do” list while driving a car, then you are not watching where you are going. It’s common sense. Don’t get caught in a dangerous situation because you are reading or writing and not paying attention to the road or nearby vehicles.
- 6. Dial sensibly and assess the traffic. If possible, place calls when you are not moving or before pulling into traffic.** Try to plan your calls before you begin your trip or attempt to coincide your calls with times you may be stopped at a stop sign, red light or otherwise stationary. But if you need to dial while driving, follow this simple tip — dial only a few numbers, check the road and your mirrors, then continue.

-
7. **Do not engage in stressful or emotional conversations that may be distracting.** Stressful or emotional conversations and driving do not mix — they are distracting and even dangerous when you are behind the wheel of a car. Make people you are talking with aware you are driving and if necessary, suspend conversations which have the potential to divert your attention from the road.
 8. **Use your wireless phone to call for help.** Your wireless phone is one of the greatest tools you can own to protect yourself and your family in dangerous situations — with your phone at your side, help is only three numbers away. Dial 9-1-1 or other local emergency number in the case of fire, traffic accident, road hazard or medical emergencies. Remember, it is a free call on your wireless phone!
 9. **Use your wireless phone to help others in emergencies.** Your wireless phone provides you a perfect opportunity to be a "Good Samaritan" in your community. If you see an auto accident, crime in progress or other serious emergency where lives are in danger, call 9-1-1 or other local emergency number, as you would want others to do for you.
 10. **Call roadside assistance or a special wireless non-emergency assistance number when necessary.** Certain situations you encounter while driving may require attention but are not urgent enough to merit a call for emergency services. But you still can use your wireless phone to lend a hand. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears to be injured or a vehicle you know to be stolen, call roadside assistance or other special non-emergency wireless numbers.

a safety reminder from
NEXTEL

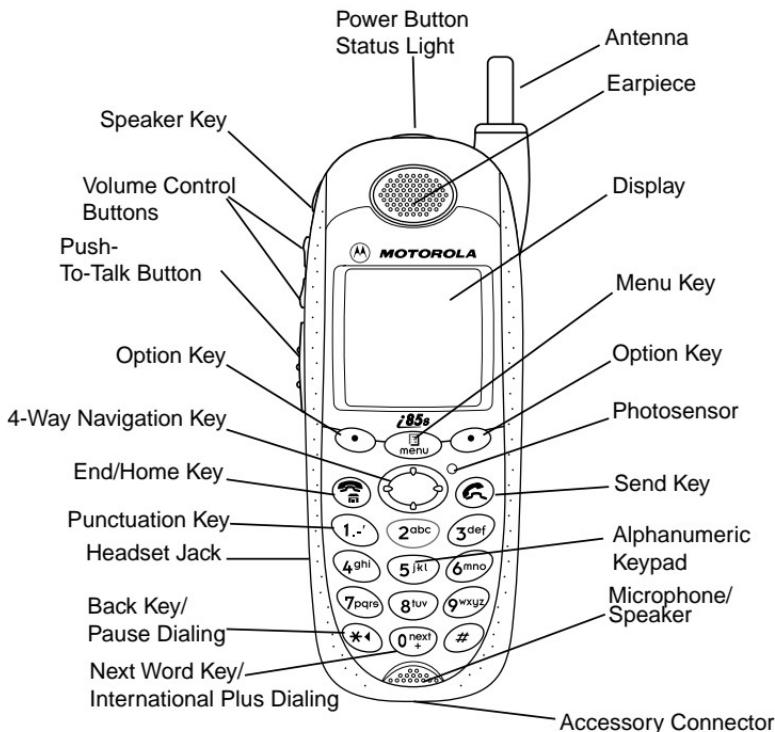

Getting Started

This section will help you get started using your phone. It contains details about some of the features and functions described in the *Getting Started Guide*.

This section includes:

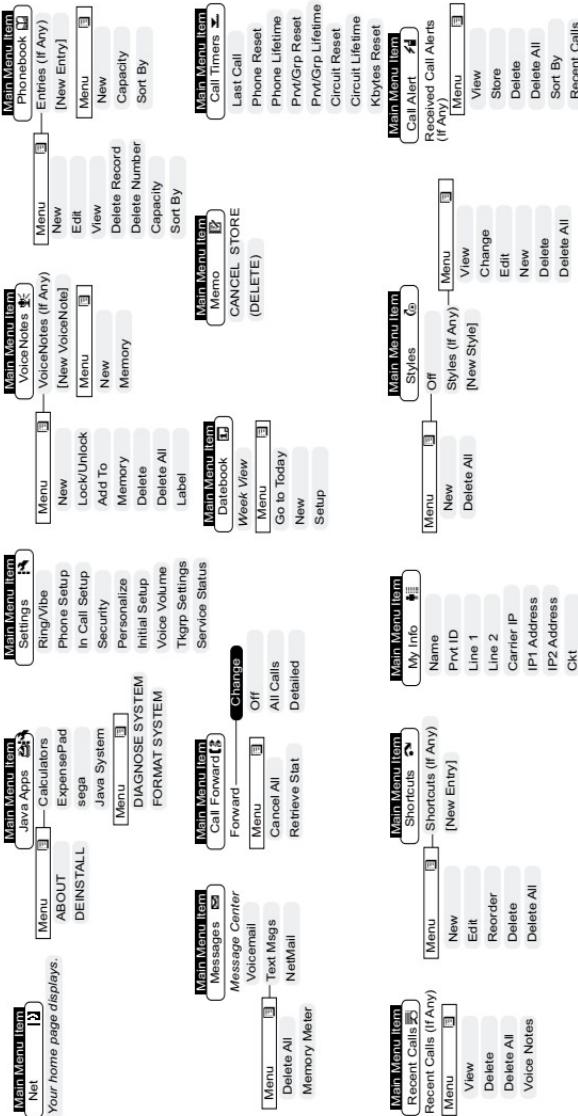

<i>i85s</i> Phone Features	Page 10
<i>i85s</i> Menu Tree	Page 11
<i>i85s</i> Icon Glossary	Page 12
Battery	Page 13
Activating Your <i>i85s</i> Phone	Page 15
Turning Your <i>i85s</i> Phone On/Off	Page 15

Status of Your <i>i85s</i> Phone	Page 27
My Information	Page 28
Using T9 Text Input	Page 28

i85s Phone Features

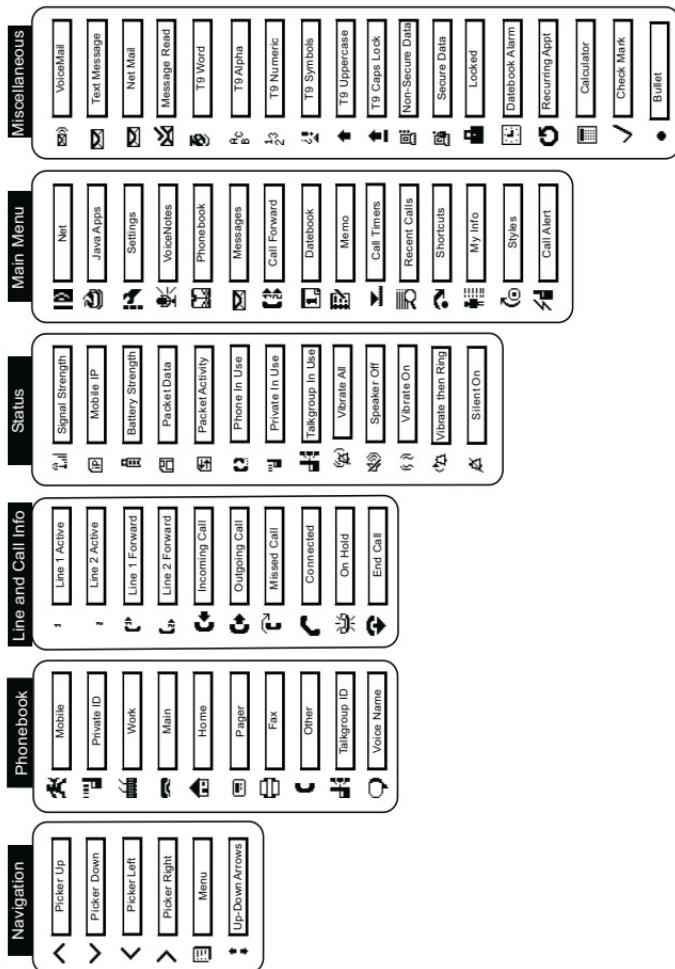

i85s Menu Tree

You can access the main menu options by pressing from the idle screen. Use to navigate through the menus and submenus. Press or under the display options to perform the desired phone functions.

i85s Icon Glossary

You may see these icons while using your *i85s* phone:

The icon of the main menu feature currently in use displays in the top left of the status icon rows. For a list of the main menu options, see “Main Menu Options” on page 39.

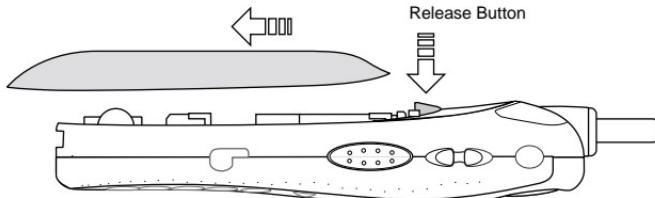

Battery

Your *i85s* phone comes with a Lithium Ion battery. After attaching the battery, you must charge it before you use it for the first time. See “Batteries” on page 161 for the appropriate charging times for your phone’s battery. After the initial charging, the battery can be charged more quickly.

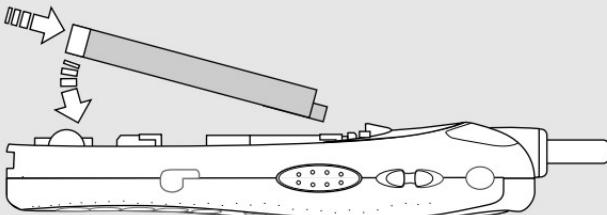

Remove the battery from the protective plastic safety tray provided in the original packaging. When the battery is not attached to the phone store it in the original tray.

Attaching the Battery

- 1 Remove the battery cover located on the back of the phone by pressing the battery cover release button and sliding the battery cover away from the antenna.

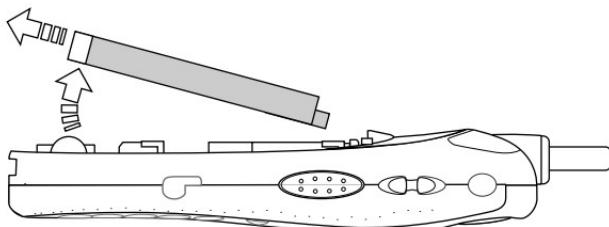

- 2 Insert the top of the battery into the battery area. Press down on the bottom of the battery to secure it.

- 3 Replace the battery cover and push forward until you hear a click.

Detaching the Battery

- 1** Ensure that the phone is powered off before attempting to detach the battery.
- 2** Press the battery cover release button and slide the battery cover away from the antenna.
- 3** Remove the battery by pushing the battery toward the antenna and lifting it out of the phone.

Charging the Battery

- 1** With your phone's keypad facing up, plug the charger's accessory connector into the left side of the accessory connector on the bottom of the phone.

- 2** If the charger has folding electrical prongs, flip open the prongs.
- 3** Plug the charger into an electrical outlet.

Your phone's screen backlight will remain lit while the battery is charging.

Battery Charging Status

The battery strength indicator icon found on your phone's display screen shows the charge amount remaining in the battery.

Icon Display				
When Using Phone	Low Battery	11% to 40%	41% to 70%	Fully Charged
When Charging Batteries	Low Battery	30% to 60%	61% to 90%	Fully Charged

A short, chirp-like sound indicates a low battery. This indicates that you have approximately five minutes of talk time remaining.

Activating Your i85s Phone

NOTE: To register for the first time on the Nextel National Network, you must turn on your i85s phone in your home market.

Before you can begin using your i85s phone, it must be activated.

- Before calling Nextel Customer Care, read "Nextel Terms and Conditions of Service" on page 168.
- If you purchased your phone through a Nextel Direct Sales Representative, a Local Authorized Representative, or a National Authorized Representative, your phone should already be active.

If your display reads **No Service** or doesn't change to the idle screen when you turn on your phone, and you know you are in a Nextel coverage area, call Nextel Customer Care at 1-800-639-6111. (For details on Nextel coverage areas, visit nextel.com.)

Turning Your i85s Phone On/Off

To power the phone on:

- | | |
|----------|---|
| 1 | For optimal signal strength, extend the antenna. |
| 2 | Press and hold ¶ at the top of the phone until the status light glows red and a tone briefly sounds. |

- 3** When the **Enter SIM PIN Code** screen displays, enter your SIM PIN. (For more information see “SIM Card Personal Identification Number (PIN)” on page 17.)

NOTE: The default SIM card PIN is 0000. It is recommended that you change your PIN to prevent fraudulent use of the SIM card (see “Changing the PIN” on page 18).

- 4** Press  under OK.

As your phone connects to the Nextel National Network, you will see **Welcome To Nextel** and a connecting message. When the idle screen appears on the display, you are ready to use your *i85s* phone!

To power the phone off:

- 1** Press and hold  on the top of the phone until you see the message **Powering Off**.
- 2** Push down the antenna.

Security Features of the *i85s* Phone

The *i85s* phone comes with two levels of security protection:

- SIM Card
- Keypad Lock

Your phone comes with a built-in level of security protection through the use of the SIM (Subscriber Identity Module) card. The SIM card stores all your Phonebook information. Since this information is stored on the SIM card, not in your phone itself, you can remove the information by removing the SIM card.

The SIM card is located in the SIM Card Holder on the back of the phone, underneath the battery. You can verify that the SIM card is in place by removing the battery and viewing the SIM card through the SIM card cover.

See “Removing/Inserting the SIM Card” on page 22 for information on locating the SIM card. If there is no SIM card in your phone, notify your Nextel Authorized Representative.

NOTE: Except for making emergency calls, your phone will not function without the SIM card.

SIM Card Personal Identification Number (PIN)

To prevent unauthorized use of your phone, your SIM card is protected by a PIN. Each time the phone is powered on, you must enter your PIN. You can change or disable your PIN if desired.

NOTE: Disabling your PIN enables anyone to use your phone. If you disable your PIN, you must still keep the SIM card in the phone to make calls.

Entering the PIN

By default, your phone is set to require you to enter a PIN.

**NOTE: Your default SIM card PIN is: 0000.
It is recommended that you
change your PIN to prevent
fraudulent use of the SIM card
(see “Changing the PIN” on page
18).**

 Caution	Incorrectly entering your PIN three times causes the SIM card to be blocked. To unlock your SIM card, you must contact Nextel Customer Care at 1-800-639-6111. For more information, see “Unlocking the PIN” on page 19.
---	--

- 1 From the **Enter SIM PIN** screen, enter your four- to eight-digit PIN. An asterisk appears for each character entered.

NOTE: Other than emergency dialing, you will be unable to use any of the phone functions, including receiving phone calls, until you enter the PIN.

- 2 Press under OK.

If you enter an incorrect PIN, the message **SIM PIN incorrect: Try again** appears on your phone's screen. After three consecutive incorrect attempts, the SIM card is blocked. The phone does not allow you to attempt to enter your PIN again, even after powering the phone off and back on. If this happens, see "Unblocking the PIN" on page 19.

Changing the PIN

- 1 At the idle screen, press and then press to scroll to **Settings**.

- 2 Press under SELECT. The **Settings** screen displays.

- 3 Press to scroll to **Security**. Press under SELECT to access the **Security** screen.

- 4 At the **Security** screen, press to scroll to **New Passwords**. Press under SELECT to access the **New Passwords** screen.
- 5 At the **New Passwords** screen, press to scroll to **SIM PIN** and press under SELECT.
- 6 At the **Enter Old SIM PIN Code** screen, enter the current SIM PIN and press under OK.
- 7 At the **Enter New SIM PIN Code** screen, enter the new 4- to 8-digit SIM PIN and press under OK.
- 8 At the **Re-enter New SIM PIN Code** screen, re-enter the new SIM PIN to confirm, and press under OK.

Unblocking the PIN

If you forget your PIN and unsuccessfully enter it three times, access to your phone will be blocked.

NOTE: Before you begin, obtain the PIN Unblocking Key (PUK) code from Nextel Customer Care at 1-800-639-6111, then read and understand the PIN unblocking sequence. In entering the key press sequence, each key press must occur within 5 seconds of the prior key press.

**Caution**

If you unsuccessfully enter the PUK code ten times, the SIM card is permanently blocked and must be replaced. If this happens, all data will be lost. You will get a message to contact your service provider. Call Nextel Customer Care for assistance. If the SIM card is blocked, the *i85s* phone only allows outgoing Emergency calls.

To unblock the PIN:

- 1 Press .
- 2 Enter the PUK code.
- 3 Press .
- 4 Enter a new 4- to 8-digit SIM PIN and press .
- 5 Re-enter your SIM PIN and press .

If you entered the codes properly, the **SIM Unlocked** screen displays.

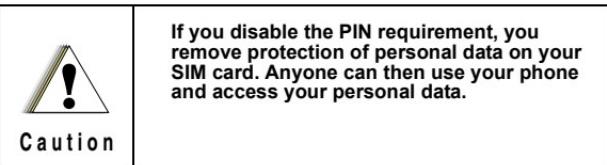

Disabling/Enabling the PIN Requirement

When the PIN requirement is enabled, you are prompted to enter your PIN each time you turn on your phone. Until a valid PIN is entered, you can use the phone only to make emergency calls.

After the PIN is accepted, the phone registers on the network and the idle screen displays.

When the PIN requirement is disabled, the phone can be used without entering a PIN.

- At the idle screen, press and then press to scroll to **Settings**.

- Press under SELECT. The **Settings** screen displays.

- Press to scroll to **Security**. Press under SELECT to access the **Security** screen.

- At the **Security** screen, press to scroll to **SIM PIN**. Press under SELECT to access the **SIM PIN** screen.

- Press to scroll to **On** or **Off**. **On** enables the SIM PIN requirement; **Off** disables the SIM PIN requirement. Press under SELECT.

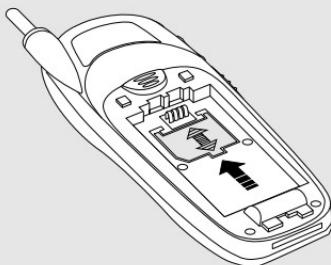

- At the **Verify SIM PIN Code** screen, enter the current SIM PIN and press under **OK**.

Removing/Inserting the SIM Card

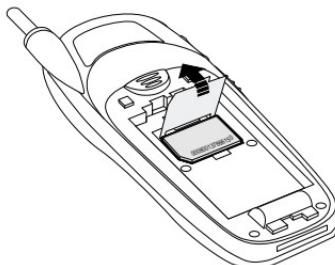

NOTE: To avoid loss or damage, do not remove your SIM card unless absolutely necessary.

- 1 With the phone powered off, remove the battery cover and battery. See "Detaching the Battery" on page 14.

- 2 With the antenna facing away from you, and the back of the phone exposed and facing up, locate the SIM cover and gently push it forward.

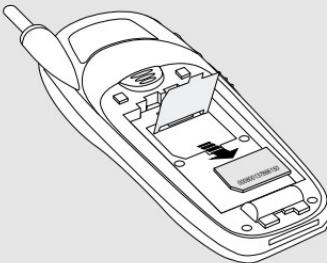

- 3 Lift the SIM cover up.

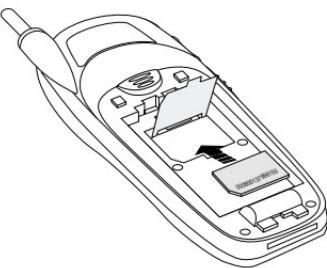

- 4** To remove the SIM card, *very carefully* lift it out of its holder. *Do not touch the gold-colored areas of the SIM card.*

NOTE: Protect the SIM card as you would any delicate object. When the SIM card is not in the phone, you should store it in something protective, such as a mailing envelope.

- 5** To insert the SIM card, *very carefully* place it in its holder with the gold contact side facing down and the cut corner on the card properly aligned with the cut corner of the holder.

Close the SIM card cover and slide it down until you hear a click.

Keypad Lock

The i85s phone includes a Keypad Lock feature that enables you to quickly lock the phone's keypad to avoid inadvertently pressing keys or placing calls. Once Keypad Lock is activated, you can only perform the following tasks:

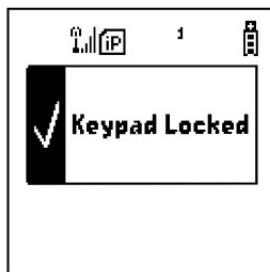

- Turn your phone on and off
- Unlock the keypad
- Receive incoming calls, messages, and alerts.

NOTE: Emergency calls cannot be placed while Keypad Lock is activated.

Before locking your phone's keypad, you may want to read this entire section to learn how to respond to incoming calls, messages, and alerts.

Activating Keypad Lock

From the idle screen, press then . The message **Keypad Locked** displays on your phone.

Whenever a key is pressed while in Keypad Lock mode, the unlock instructions display briefly.

Receiving Incoming Calls

When you receive an incoming phone call (see "Receiving a Phone Call" on page 61), Keypad Lock is temporarily disabled.

- 1 Press under YES or press to answer the call.
Or,
Press under NO or press to send the call to Voice Mail and reactivate Keypad Lock.
- 2 When you end the call, the **Recent Calls** list appears. Press to reactivate Keypad Lock and return to the idle screen.

Receiving Nextel Direct Connect Calls

When you receive an incoming Private call, Talkgroup call, or call alert (see “Direct Connect” on page 101), Keypad Lock is temporarily disabled.

- 1** Press and hold the Push-To-Talk (PTT) button on the side of the phone. Begin talking after the phone emits a chirping sound. Release the PTT button to listen.
- 2** When you end the call, the **Recent Calls** list appears. Press  to reactivate Keypad Lock and return to the idle screen.

Receiving New Voice Mail

When you receive new Voice Mail (see “Nextel Voice Mail” on page 77), Keypad Lock is temporarily disabled.

- 1** When **New VoiceMail Message** displays, press  under EXIT to return to the idle screen and reactivate Keypad Lock.

Or,

Press  under CALL to access Voice Mail.
- 2** Once you have finished, press  to exit Voice Mail. The **Recent Calls** list displays. Press  to reactivate Keypad Lock and return to the idle screen.

Receiving New Text Messages

When you receive new Text Messages (see “Text and Numeric Messaging” on page 94), Keypad Lock is temporarily disabled.

- 1 When **New Text Message** displays, press under EXIT to return to the idle screen and reactivate Keypad Lock.

Or,

Press under READ to read the message. Press under SAVE or DELETE.

- 2 Once you have finished, press under EXIT to reactivate Keypad Lock return to the idle screen.

Receiving New Net Mail

When you receive new Net Mail (see “Two-Way Messaging” in the *Nextel Wireless Web User’s Guide* for more information), Keypad Lock is temporarily disabled.

- 1 When **New Browser Message** displays, press under EXIT to return to the idle screen and reactivate Keypad Lock.

Or,

Press under GOTO. Press under View. Press under OK or Reply.

- 2 Once you have finished, press until you reactivate Keypad Lock return to the idle screen.

Deactivating Keypad Lock

From the idle screen, press then . The message **Keypad Unlocked** displays briefly.

Status of Your i85s Phone

Your i85s phone has a status light that displays around the power button. The status light indicates the status of your connection.

Status Light Indicator	i85s Phone Status
Flashing Red	Signing on to the network. Please wait.
Solid Red	No service or out of coverage area. If you are in a coverage area, keep your phone on and it will attempt to connect to the network every two minutes. If the phone does not connect after 15 minutes or more, call Nextel Customer Care at 1-800-639-6111.
Flashing Green	In service/Ready to use. NOTE: Nextel Direct Connect is only available in your home calling area.
Solid Green	In use.

My Information

You can select **My Info** from the main menu to display or edit the following:

- Name — enter your name in this field.
- Private ID — your Private ID is displayed in this field. Your Private ID is the number that others use to contact you using the Nextel Direct Connect feature.
- Phone Numbers of Lines 1 and 2 — your phone's numbers are displayed in these fields. You can edit the phone numbers displayed on the **My Information** screen, but this does not change your phone numbers.
- IP Addresses — these fields display the IP addresses you use to access the Internet with your phone.
- Circuit Data Number (Ckt) — your circuit data number is in this field.

Viewing/Editing My Information

- | | |
|----------|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to My Info . Press  under SELECT. The My Information screen displays. |
| 3 | Use  to scroll through the fields. |
| 4 | To edit the displayed information, press  under CHANGE. Edit information as desired, and press  under OK to save the changes. |
- To return to the idle screen, press  under EXIT.

Using T9 Text Input

Your i85s phone has embedded software, called T9® Text Input, that makes typing on a phone keypad much like typing on a computer keyboard: it eliminates the traditional “multi-tap” method of text entry. As you type, you press only one key per letter. T9 Text Input matches your keystrokes to words in its linguistic database of approximately 60,000 words and proper names. You may also store additional words you frequently use in your own user database, which is incorporated into the T9 database.

T9 Text Input is available when you are typing information into your Phonebook and Datebook and while using Nextel Wireless Web services.

T9 Text Input Entry Modes

Four text entry modes are available in T9 Text Input: Alpha, Word, Symbols, and Numeric. When you are using T9 Text Input, an icon* in the top right corner of your phone's display screen (next to the battery strength indicator icon) indicates the T9 Text Input entry mode you are using:

Icon	T9 Entry Mode Name	Used For...
	Alpha	Standard “multi-tap” keypad text entry.
	Word	Entering words and punctuation with one key-press per character.
	Symbols	Entering punctuation and symbols such as “@” or “?”.
	Numeric	Entering keypad numbers.

* T9 icons do not display while you are using Nextel Wireless Web services.

Choosing a Text Entry Mode on Wireless Web

When you are using Nextel Wireless Web services, T9 Text Input becomes available whenever you access a screen that requires you to enter text. The right display option on your phone's screen indicates your current T9 Text Input text entry mode:

- **ALPHA** and **alpha** for Alpha mode
- **WORD** or **word** for Word mode
- **NUM** for Numeric mode
- **SYM1**, **SYM2**, **SYM3**, or **SYM4** for Symbols mode

To change text entry modes, press the under text entry mode until the desired mode displays.

NOTE: The rest of the instructions for using T9 Text Input apply only to entering text in Phonebook and Datebook. See the *Nextel Wireless Web User's Guide* for instructions on using T9 Text Input for Nextel Wireless Web services.

Choosing a Text Entry Mode in Phonebook or Datebook

When you are using Phonebook or Datebook, you select your text entry mode from a menu available whenever the phone is displaying a screen that requires you to enter text (for example, the **Name:** screen or **Title:** screen).

To choose a text entry mode:

- 1 From any Phonebook or Datebook screen that requires text input, press  to access the **Entry Method** menu.

A check mark appears next to the current text entry mode. When you access a Phonebook or Datebook screen that requires text input, the default text entry mode is Alpha.

- 2 Press  to highlight the T9 Text Input text entry mode you want to use.

- 3 Press  under SELECT.

The phone returns to the text entry screen. The text entry mode you selected is now active.

Using Alpha Mode

To enter text (letters and numbers) while in Alpha text entry mode:

- Press any key on the alphanumeric keypad to enter the letters and numbers on that key.
- Press and hold a key to capitalize a letter, or press  to activate and deactivate Caps Lock.
- Pause briefly to leave the currently displayed character in place and move on to the next place in the text entry field.
- Press  to create a space in the text entry field.
- Press  under DELETE to delete one character. Press and hold  under DELETE to delete an entire entry.

Using Word Mode

In Word mode, T9 Text Input analyzes the letters on the keypad button you press and arranges them to create words. As you type, T9 Text Input matches your keystrokes to words in its database and will display the most commonly used matching word.

Special Key Functions

Some of your phone's keys assume different functions while in T9 Text Input Word mode.

Backspace and Erase

Press under DELETE once to backspace or to erase a single character. Press and hold under DELETE to erase the entire text entry field.

Space

Press once to accept a word and insert a space when entering text.

Next Word in Database

Press to display more words in the database that match the keystroke sequence you entered.

Shift and Caps Lock

Press to make the next letter typed uppercase (Shift), to make all subsequent letters types uppercase (Caps Lock), or to go back to lowercase letters.

These icons appears in the top row of your display screen:

- for Shift to uppercase
- for Caps Lock

When neither of these icons appear, letters typed are lowercase.

Punctuation

In Word mode, T9 Text Input uses Smart Punctuation to quickly apply basic rules of grammar to insert the correct punctuation within a word and at the end of a sentence.

Press to insert punctuation. One of eight basic punctuation symbols will be inserted (., - , ' @ : ? ;).

Press to change the inserted punctuation symbol to another of the eight basic punctuation symbols.

Press to accept the punctuation and continue typing.

NOTE: Additional punctuation symbols are available in Symbols mode.

Enter a Word

To enter a word using Word mode:

- 1 Choose Word as your text entry mode.
- 2 Type a word by using one key-press per desired letter.
For example, to type “test” press .
The displayed word may change as you type it. Do not try to correct the word as you go. Type to the end of the word before editing.
- 3 If the word that appears is not the desired word, press  to change the word on the display to the next most likely word in the database.
Repeat until the desired word appears.
If the desired word does not appear, you can add it to the database of words by deleting the displayed word and using the following instructions.

Adding Words to the User Database

To add words to the T9 database:

- 1 Change from Word text entry mode to Alpha text entry mode.
- 2 Type the word using Alpha text entry mode.
- 3 Return to Word text entry mode.
- 4 Press  to add a space.
The word you typed in Alpha text entry mode is now in the database.

NOTE: You can not store alphanumeric combinations, such as Y2K.

Choosing a Language

To change the language of the database T9 Text Input chooses common words from:

- 1 From any Phonebook or Datebook screen that requires text input, press  to access the **Entry Method** menu.
- 2 Press  to scroll to **Languages**.
- 3 Press  under SELECT.
- 4 Press  to scroll to the language of the database you want T9 Text Input text use.
- 5 Press  under SELECT.

NOTE: This feature is not available when using T9 Text Input with Nextel Wireless Web services.

Using Numeric Mode

To use Numeric text entry mode, choose Numeric as your text entry mode and press the number buttons on your keypad to enter numbers.

Using Symbols Mode

To use Symbols text entry mode:

- 1 Choose Symbols as your text entry mode.
A row of 32 symbols appears along the bottom of your phone's display screen, just above the display option and menu icon. (Press  to view the complete row.)
- 2 Press  to highlight the symbol you want to enter into the text entry field.
- 3 Press  under SELECT to enter the symbol.

Display Essentials

Your i85s phone's display screen tells you what you need to know as you use your phone.

This section includes:

Display Screen Elements	Page 35
Navigating Menus and Lists	Page 38
Main Menu Options	Page 39

Display Screen Elements

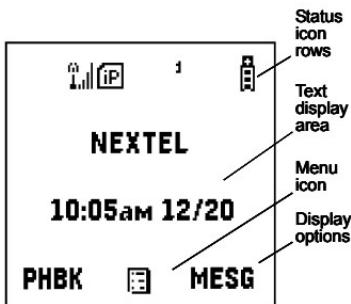

Any time your phone is powered on, the display screen provides you with information and options.

Idle Screen

The idle screen displays any time the phone is powered on, but not engaged in some activity.

The idle screen consist of elements common to many of the screens your phone displays:

- status icons
- text display area
- menu icon
- display options

USER TIP: You can always access the idle screen by pressing **②**.

Status Icons

Status icons provide you with information about your phone and its functions. These icons are *context sensitive*; meaning, the icons that appear depend on the task you are performing.

Status icons appear in the two rows at the top of the display screen. Some appear at all times. Others appear only when your phone is engaged in certain activities or when you have activated certain features.

Icon	Indicates...
	Battery Strength icons — remaining battery charge. More bars on the battery indicate a greater charge. See the table on page 15 for detailed information about the meaning of each battery strength icon.
	Signal Strength icons — strength of the network signal. More bars next to the antenna indicate a stronger signal.
	Active Line icons — currently active phone line; indicates Line 1 is active; indicates Line 2 is active.
	Call Forward icons — phone is set to forward calls. See "Call Forwarding" on page 70 for more information.
	Phone In Use — phone is connected on an active call.
	Private In Use — number being called is a Private ID.
	Talkgroup In Use — phone is active on a talkgroup call.
	Packet Data Ready — phone is ready to receive data through a data cable.
	Packet Data Activity — phone is transmitting data.
	Mobile IP — phone is ready to access the Internet.
	Secure Data — phone is accessing the Internet using a secure connection.

	Non-secure Data — phone is accessing the Internet using a non-secure connection.
	Text Message — you have one or more Text Messages or Net Mail messages.
	Voice Mail — you have one or more Voice Mail messages.
	Speaker Off — phone's speaker is off.
	Ring/Vibe icons — you have customized the way in which the phone is set to notify you when you receive calls and other types of messages. See “Ring Style and Notification Type” on page 139 for more information.
	T9 Text Input icons — you are using T9 Text Input to enter text. See “Using T9 Text Input” on page 28 for more information.

The icon of the main menu feature currently in use always appears in the top left of the status icon rows. For a list of the main menu icons, see “Main Menu Options” on page 39.

Text Display Area

On the idle screen, the text display area shows NEXTEL and the time and date, and any active Styles (see “Styles” on page 151). When you access other screens, this area displays menu options, messages, names, phone numbers, and other information.

The number of lines of text displayed in the text display area depends on which display view is selected — Standard view, Compressed view, or Zoom view. In Standard view, five lines of text are displayed.

NOTE: Standard view is the default display setting. Unless otherwise noted, illustrations in this User’s Guide depict Standard view.

Menu Icon

This menu icon  appears on any screen from which a menu can be accessed. To access a menu, press the menu key on your keypad. This key has the menu icon printed on it.

Menus are context sensitive. The menu that appears depends on the screen you access it from and the items on the menu apply to the task you are currently performing.

Pressing the menu key from the idle screen accesses the main menu.

Display Options

Two display options appear at the bottom of most screens. These options enable you to perform a wide variety of actions, including changing, saving and viewing information, running programs, and canceling previous actions. You activate a display option by pressing the option key below it.

The idle screen display options provide quick access to two main menu features. By default, the Phonebook (**PHBK**) and Messages (**MESG**) display options appear on the idle screen. You can control which display options appear on the idle screen using the phone's Personalize feature in the Settings menu (see "Changing Idle Screen Options" on page 144).

The display options on screens other than the idle screen cannot be customized.

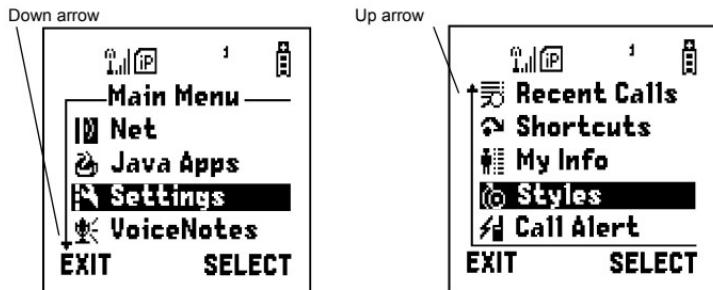

Navigating Menus and Lists

The *i85s* phone is menu driven. By navigating menus, you access submenus which lead to all of the functions and features that are built into your phone. Use the menus to store calls, manage your Phonebook and Datebook, change your phone settings, browse the Internet, and more.

Some features include lists of names, numbers, or other information. These list items can be accessed the same way menu options are.

To access the items in a menu or list, scroll through using the four-way navigation key near the center of your keypad. Scroll down by pressing the lower portion of the navigation key . Scroll up by pressing the upper portion of the navigation key . Holding down the appropriate part of the navigation key speeds up scrolling. If you continue scrolling after you have reached the bottom or top of a menu or list, you "wrap-around" to the opposite end.

If more items appear in a menu or list than can be displayed in the text area, a down arrow or up arrow appears in the left side of the screen indicating that more options may be accessed by scrolling up or down.

Main Menu Options

By default, the main menu options appear in the order shown in this table. You can change the order in which they appear by using the Personalize feature (see “Reordering Main Menu” on page 144).

To access the main menu, press from the idle screen:

Menu Item	Use to ...
Net	Browse the Nextel Wireless Web.
Java Apps	Run pre-installed and download custom Java applications on your phone.
Settings	Customize your phone: Ring/Vibe, In Call Setup, Security, Personalize, Initial Setup, Phone Setup, Voice Volume, and Talkgroup Settings.
VoiceNotes	Record personal messages or the incoming portion of phone calls to play back at a later time.
Phonebook	Store and retrieve a list of stored entries for calling, editing, viewing and deleting.

 Messages	Receive, store, access and manage Voice Mail, Text Messages, and Net Mail.
 Call Forward	Settings for forwarding calls in various situations.
 Datebook	Schedule and organize events, by the day or the month, such as appointments and meetings.
 Memo	Input and store numbers to access later.
 Call Timers	Display the duration of phone calls, private or group calls, circuit data use, and Kilobytes sent and received.
 Recent Calls	Access a list of the last 20 sent, received, or missed calls. Calls can be made from this list.
 Shortcuts	Associate a menu option with a number on the alphanumeric keypad for quick and easy access.
 My Info	View the name, Private ID, phone numbers for lines 1 and 2, IP address, and circuit data number of your phone.
 Styles	Create or edit a group of settings and save them as one for use in different environments.
 Call Alert	Store received Nextel Direct Connect call alerts to respond to at your convenience.

To choose the highlighted Main Menu selection, press  under SELECT. To exit the Main Menu (and return to the idle screen), press  under EXIT or press .

Phonebook

The Phonebook allows you to store up to 250 frequently used names and numbers.

When you store information in your Phonebook, it is saved on your SIM card. If you move your SIM card to another *i85s* phone, you can access information in your Phonebook from that phone.

This section includes:

Phonebook Entries and Speed Dial Numbers	Page 41
Phonebook Icons	Page 42
Voice Names	Page 43
Accessing Your Phonebook	Page 43
About Phonebook Entries	Page 44
Viewing Phonebook Entries	Page 44
Sorting Phonebook Entries	Page 45
Adding Phonebook Entries	Page 46
Editing Phonebook Entries	Page 51
Deleting Phonebook Entries	Page 52
Pause Digit Entry	Page 52
Plus Dialing	Page 53
Address Book	Page 54

Phonebook Entries and Speed Dial Numbers

Your Phonebook can store multiple phone numbers to a single name. For example, you can enter someone's name into your Phonebook once and then assign that person's home, office, mobile phone and fax numbers to the name.

Each number stored in your Phonebook is automatically assigned a Speed Dial number that corresponds to its location in your Phonebook. Each phone number uses one Speed Dial location, even if it is assigned to the same name as other phone numbers. The phone number stored in location 1 is assigned Speed Dial number 1, the phone number stored in location 2 is assigned Speed Dial number 2, and so forth, to location 250.

Phonebook Icons

Icons that appear to the right of entries in your Phonebook convey information about those entries.

When you enter a phone number in your Phonebook, you can designate the phone number's type using any of the following icons:

	Mobile
	Private
	Work
	Main
	Home
	Pager
	Fax
	Other
	Talkgroup

NOTE: The Mobile icon automatically appears to the right of the first phone number assigned to a name unless you choose another icon.

For more information on entering phone numbers into your Phonebook, see “Adding Phonebook Entries” on page 46.

The “picker” arrows appearing around the phone number type icon indicates multiple phone numbers stored under one name:

The Voice Name icon appearing to the left of one of the phone number type icons indicates that a voice name is associated with the Phonebook entry:

Voice Names

A voice name is an audio recording you make by speaking into your i85s phone that you assign to a number in your Phonebook. You can then dial the number by speaking the words you recorded into the phone. See step 6 of “Adding Phonebook Entries” on page 46 for more information on creating a voice name.

Accessing Your Phonebook

If PHBK is one of your display options:

From the idle screen, press  under PHBK.

If PHBK is not one of your display options:

- | |
|--|
| 1 From the idle screen, press  . |
| 2 Press  to scroll to Phonebook . |
| 3 Press  under SELECT. |

USER TIP: You can also access the Phonebook by pressing  while your phone is in a phone call or private call. Press  to scroll to Phonebook and press  under SELECT.

This brings you to the **Phonebook** screen. From this screen, you can view, sort, add, edit, and delete Phonebook entries, check Phonebook capacity, or make calls.

About Phonebook Entries

Each Phonebook entry may contain the following information:

- The name associated with the entry. Typically, this is the name of the person whose number you are storing in the Phonebook.
- The type of number to be stored: Mobile, Private, Work, Main, Home, Pager, Fax, Other, or Talkgroup. If you don't choose a type, the number is assigned type Mobile, unless a Mobile number has already been assigned to the name.
- The phone number to be stored. Every Phonebook entry must contain a phone number. This number may be any type of phone number, Private ID, or Talkgroup number.
- A Speed Dial number. You may accept the default Speed Dial number or assign a different one.
- A voice name audio recording for voice-activated dialing.

Viewing Phonebook Entries

Names with more than one number assigned to them appear with <> surrounding the icon to the right of the name. For example, if you had stored a home and work number for Joe Smith, the entry for Joe Smith's home phone number would look like this:

Joe Smith < >

When the name is highlighted, press  to scroll to the icons representing each of the numbers assigned to that name.

To view any of the phone numbers assigned to a name:

- 1 From the **Phonebook** screen, press  to scroll to the name associated with the phone number you want to see.
- 2 Press  to view the icons representing the phone numbers assigned to that name.

- 3** When the icon representing the number you want to view is displayed, press  under VIEW.

If there is a Private ID or a Talkgroup number stored for the person, press . Then press  to scroll to View and press  under SELECT.

- 4** Press  to view the other numbers stored for this name.

Sorting Phonebook Entries

You can sort your Phonebook entries by:

- Name — the name you entered for the entry.
- Speed No. — the Speed Dial location of the entry.
- Voice Name — all entries with voice names appear at the top of the list.

NOTE: Private calls can not be made from the Phonebook when sorted by Speed Dial location.

To sort your Phonebook list:

- 1** From the **Phonebook** screen, press  to view the **Phonebook Menu** screen.

- 2** Press  to scroll to **Sort By**.

- 3** Press  under **SELECT**.

- 4** Press  to scroll to the desired sorting method: **Name**, **Speed No.**, or **Voice Name**.

- 5** Press  under **SELECT**.

Checking Phonebook Capacity

Your Phonebook can store up to 250 numbers of any kind. To see how many entries are stored in your Phonebook:

- 1 From the **Phonebook** screen, press  to view the **Phonebook Menu** screen.
- 2 Press  to scroll to **Capacity**.
- 3 Press  under SELECT.

The **Capacity** screen shows how many storage spaces in your Phonebook are in use and how many are empty.

Adding Phonebook Entries

Using the following instructions, you will enter the information in the order the items appear on the Phonebook **Entry Details** screen. However, you can enter this information in any order by pressing  to scroll through the items on the **Entry Details** screen.

You can leave any item blank (except phone number) or unchanged by pressing  to scroll past it on the **Entry Details** screen. Only a phone number is required for a valid Phonebook entry.

To cancel a Phonebook entry at any time, press  to return to the idle screen.

To add a Phonebook entry:

1 Access the **Entry Details** screen:

From the **Phonebook** screen, press to scroll to **[New Entry]** and press under **SELECT**.

Or,

From the **Phonebook** screen, press . Then press to scroll to **New** and press under **SELECT**.

2 If you want to assign a name to your Phonebook entry:

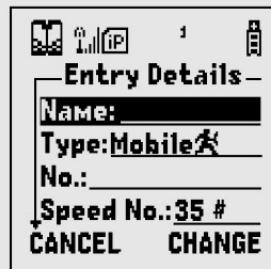

With the **Name:** field highlighted, press under **CHANGE**.

From the **Name:** screen, enter the name using the alphanumeric keypad.

See “Using T9 Text Input” on page 28 for information about entering text into this field.

When you are finished, press under **OK**.

The **Entry Details** screen returns with the **Type:** field highlighted.

- 3** To accept the phone number type **Mobile**, press to scroll to the **No:** field.

If you want to assign a phone number type other than **Mobile** to your Phonebook entry:

With the **Type:** field highlighted, press under **CHANGE**.

From the **Type Editor** screen, press to scroll to the type of phone number you want to assign to the Phonebook entry.

Press under **SELECT**.

The **Entry Details** screen returns with the **No.:** field highlighted.

- 4** Assign a phone number to your Phonebook entry:

With the **No.:** field highlighted, press under **CHANGE**.

Type the number using the alphanumeric keypad. For phone numbers, use the 10-digit format.

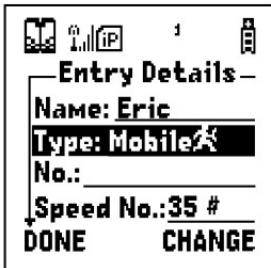

To delete a digit, press under **DELETE**.

See “Pause Digit Entry” on page 52 and “Plus Dialing” on page 53 for information on using these features when storing phone numbers in you Phonebook.

NOTE: The number can be up to 20 characters long.

When you are finished, press under **OK**.

The **Entry Details** screen returns with the **Speed No.** field highlighted.

- 5 The default Speed Dial number assigned to the Phonebook entry is displayed in the **Speed No.:** field. This is always the next available Speed Dial location.

To accept the default Speed Dial location, press to scroll to the **Voice Name** field.

If you want to assign the phone number to a different Speed Dial location:

With the **Speed No.:** field highlighted, press under **CHANGE**.

Press under **DELETE** to delete the current Speed Dial number.

Type the new Speed Dial number using the alphanumeric keypad.

When you are finished, press under **OK**.

- 6 If you want to assign a voice name to the number:

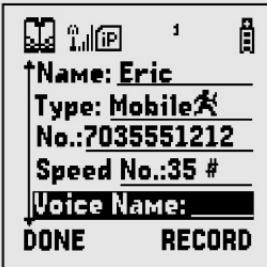

With the **Voice Name:** field highlighted, press under **RECORD**.

As directed by the screen prompts, say and repeat the name you want to assign to the number. Speak clearly into the microphone.

An appears in the **Voice Name:** field indicating that the voice name has been recorded.

USER TIP: For best results, record in a quiet environment.

If you do not want to store a Voice Name for this number, continue to the next step.

- 7** If you want to store more phone numbers to the name associated with this Phonebook entry:

Press to scroll to **MORE** at the bottom of the **Entry Details** screen and then press under **SELECT**.

A new **Type:** field appears for the additional number.

Enter the information for the additional phone number using step 3 through step 7.

NOTE: Each name in your Phonebook may have up to seven phone numbers and one Private ID number associated with it.

- 8** When you have entered all the information for this Phonebook entry, press under **DONE**.

Storing Numbers Fast

Your phone gives you two ways to store phone numbers quickly: from the idle screen and from the Recent Calls list.

To store a number from the idle screen:

- From the idle screen, use the alphanumeric keypad to enter the number you want to store.
- Press to access the **Dialing Menu** screen.

- 3** With **Store Number** highlighted, press  under SELECT.

This displays the **Entry Details** screen with the **No:** field filled in with the number you typed.

- 4** If you want to add more information to the Phonebook entry, follow the applicable instructions in “Adding Phonebook Entries” on page 46.

- 5** Press  under DONE.

To store a number from the Recent Calls list:

- 1** From the **Recent Calls** screen, press  to scroll to the number you want to store.

- 2** Press  under STORE.

This displays the **Entry Details** screen with the **No:** field filled in with the number of the recent call.

- 3** If you want to add more information to the Phonebook entry, follow the applicable instructions in “Adding Phonebook Entries” on page 46.

- 4** Press  under DONE.

Editing Phonebook Entries

- 1** From the **Phonebook** screen, press  to scroll to the entry you want to edit.

- 2** Press  to view the **Phonebook Menu**.

- 3** Press  to scroll to **Edit**.

- 4** Press  under SELECT. The **Entry Details** screen displays.

- 5** Follow the applicable instructions in “Adding Phonebook Entries” on page 46 to edit the various fields.

Deleting Phonebook Entries

- 1 From the **Phonebook** screen, press  to scroll to the entry you want to delete.
- 2 Press  to view the **Phonebook Menu**.
- 3 Press  to scroll to **Delete Record** or **Delete Number**.

Delete Record deletes the name and all numbers associated with that name.

Delete Number deletes the number associated with the icon that is currently displayed in the Phonebook list for the name. The name and all the other numbers will remain.
- 4 Press  under SELECT. A warning screen displays requiring you to confirm the deletion.

Pause Digit Entry

When storing a number, you can program your phone so that it will not only dial a number but also pause before entering another series of numbers such as a personal identification number (PIN) or password. This feature is particularly useful for accessing automated services such as voice mail and banking systems from your i85s phone.

Here's how it works. Let's say you have a company voice mail account that you frequently check while traveling. And, to access that account you must do the following:

- Dial your work number;
- Press # while the voice mail greeting is being played; and
- Enter your PIN to access your messages.

You can program your phone to enter all of the above information for you. All you have to do is separate each entry with a pause. If you were to program your phone to automatically input the above information, the stored data would look like this 17035551234P#P1234. In this example, the first eleven digits represent the number that must be dialed to access your voice mail. The P represents a 3 second pause. The # interrupts your greeting. The second P represents another 3 second pause. The last four digits represent your PIN.

You can use this feature not only to enter PINs and passwords but also to have the phone automatically select menu options (i.e., press 1 to hear messages).

To create a three-second pause follow the steps below:

Press and hold  for two seconds. The pause symbol (P) will appear on the display screen.

NOTE: You can enter up to 20 characters in a single entry, stored or dialed.

NOTE: If you use a system that will not let you enter an option until the automated message has played in its entirety, you can program your phone to pause for more than 3 seconds. For example, performing the above step twice will program two pauses and cause your phone to wait 6 seconds before entering the next set of numbers.

Plus Dialing

This feature enables you to place an international call from most countries — without entering the local international access code. Use Plus Dialing for all Phonebook entries if you plan to travel outside the United States. Begin by following the instructions for “Adding Phonebook Entries” on page 46. Before you type the phone number to be stored:

- 1** Press and hold  for two seconds. A “0” appears, then changes to a “+”.

NOTE: The network translates the “+” into the appropriate international access code needed to place the call.

- 2** Enter the country code, city code, or area code (as needed), and phone number.
- 3** Follow the rest of the instructions for “Adding Phonebook Entries” on page 46.

Address Book

Manage your contact information with Address Book. Address Book provides easy maintenance and entry of contact information and access to that information from your *i85s* phone or nextel.com. Address Book is a Nextel Wireless Web service and requires the activation of a Nextel OnlineSM Service Plan. To order, call Nextel Customer Care at 1-800-639-6111.

For instructions on how to use this application, see “Address Book” in the *Nextel Wireless Web User’s Guide*.

Digital Cellular

The *i85s* phone utilizes Nextel's All-Digital National Network for digital cellular service. You can also use this phone to roam internationally on other iDEN networks using Nextel Worldwide Service. See nextel.com for coverage.

Making Phone Calls

Your *i85s* phone provides the following features for making phone calls:

- Direct Dial
- Phonebook
- Recent Calls
- Speed Dial
- Turbo Dial®
- Voice-Activated Dialing
- Last Number Redial

Using Direct Dial

- | | |
|----------|--|
| 1 | From the idle screen, use the keypad to enter the number you want to call. |
| 2 | Press  to place the call. |
| 3 | Press  to end the call. |

NOTE: See “Plus Dialing” on page 53 for information on making international calls.

If you make a mistake:

- To clear one digit, press  under DELETE.
- To clear all digits, press and hold  under DELETE.
- To cancel, press .

Making Calls from the Phonebook

After you have entered phone numbers into your Phonebook, you can use these numbers to make phone calls. For information on entering numbers into your Phonebook, see “Adding Phonebook Entries” on page 46.

To make calls from the Phonebook:

- 1 From the idle screen, if PHBK is one of your display options, press  under PHBK.

Or,

From the idle screen, press , then press  to scroll to **Phonebook**. Press  under SELECT.

- 2 Press  to scroll through the names in your Phonebook.

Or,

Use the alphanumeric keypad to enter the first letter of the name and press  to scroll through the names beginning with that letter.

Stop when the name of the person you want to call is highlighted.

- 3 If more than one number is stored for the person you want to call,   appears around the icon to the right of the person's name.

Press  to scroll through the icons representing the numbers stored for that person.

Or,

Press  under VIEW to view all the numbers stored for this person. Then press  to scroll to the number you want to call.

Or,

If there is a Private ID or a Talkgroup number stored for this person, press . When the **Phonebook Menu** appears, press  to scroll to **View** and press  under SELECT. Then press  to scroll to the number you want to call.

For more information on assigning multiple numbers to one person, see “Adding Phonebook Entries” on page 46.

- 4 Press  to place the call.

- 5 Press  to end the call.

Making Calls from the Recent Calls List

Your phone stores the numbers of the last 20 calls you received or sent in the Recent Calls list.

- 1 From the idle screen, press .

Or,

From the idle screen, press . Press  to scroll to **Recent Calls**. Press  under SELECT.

- 2 Press  to scroll the list of received or sent recent calls until you reach the desired call.

- 3 To view additional information about the call:

Press  under VIEW.

Or,

Press  to access the **Rec. Calls Menu**. Then press  to scroll to **View** and press  under SELECT.

- 4 Press  to place the call.

- 5 Press  to end the call.

Using Speed Dial

Each phone number stored in your Phonebook is assigned a Speed Dial number. You can use the Speed Dial number to quickly place a call.

- 1 From the idle screen, enter the Speed Dial number assigned to the phone number you want to call.

- 2 Press . The number's Phonebook entry information will display.

- 3 Press  to place the call.

- 4 Press  to end the call.

Using Turbo Dial

Turbo Dial allows you to call the numbers in your Phonebook associated with Speed Dial numbers 1 through 9 by pressing and holding the corresponding numeric key on the keypad.

Press and hold a number (keys 1 through 9).

NOTE: Turbo Dial cannot be accessed while the browser is active, nor while Keypad Lock or SIM Lock is active.

Making Calls Using Voice-Activated Dialing

If you have recorded a voice name for a phone number in your Phonebook (see “Voice Names” on page 43), you can use this feature to call the number.

- 1 From the idle screen, press and hold  on the side of your phone until the **Say Name Now** screen appears.
- 2 Speaking into the microphone, say the voice name assigned to the phone number you want to call.
- 3 Your phone will play the name back to you.

The call will automatically be placed.

USER TIP: If you have difficulty making phone calls using a voice name, try assigning a longer voice name to the number. For example, if the voice name “Joe” fails to place a call to Joe Smith’s number, try assigning the voice name “Joe Smith” to the number.

Last Number Redial

Press and hold  to redial the last number you called.

NOTE: If you receive “System Busy, Try Later,” press  to redial the number automatically. You will hear a ring-back tone when the call is successfully placed.

Placing International Phone Calls

When making an international call, you can either enter the international access code directly (for example, 011 in the United States) or use Plus Dialing.

You can make international calls from your Phonebook if you have stored the numbers with Plus Dialing. See “Adding Phonebook Entries” on page 46 and “Plus Dialing” on page 53 for more information.

**NOTE: Your service default is “International Calls Restricted.”
Therefore, you must call Customer Care at 1-800-639-6111 to obtain international dialing access.**

To make an international call using Plus Dialing:

- 1 Press and hold  for two seconds. A “0” appears, then changes to a “+”.

NOTE: The network translates the “+” into the appropriate international access code needed to place the call.

- 2 Enter the country code, city code, or area code (as needed), and phone number.
- 3 Press  to place the call.
- 4 Press  to end the call.

Emergency Calling

Your phone supports emergency calling. Emergency calls can be made even when the SIM card is blocked or not in the phone.

To place a call in an emergency, dial 911. You will be connected to the nearest emergency dispatch center. If you are on an active call, you must end it before calling 911.

NOTE: If you have enabled the Keypad Lock feature, you must unlock the phone’s keypad before any call can be made, including 911 emergency calls.

Special Dialing Codes

Nextel supports many “non-emergency” numbers (such as #77, 311,...) provided by local and state governments. These numbers are used to report traffic accidents, motorist problems, careless drivers or any other non-emergency incidents. If the situation includes imminent danger or loss of life, you should dial 911.

Receiving a Phone Call

Incoming calls are indicated by a ring, vibration, or backlight illumination. Press  (or any key on the keypad) or press  under YES to answer the call.

Ending a Phone Call

Press  to hang up.

Recent Calls

The Recent Calls feature stores the phone numbers of the 20 most recent calls you have made and received, including private and talkgroup calls. You can access Recent Calls to:

- view your recent calls
- store numbers to the Phonebook
- delete recent calls
- call numbers on the Recent Calls list

NOTE: The Recent Calls list displays briefly after you end a call.

Viewing Recent Calls

To view your Recent Calls list:

- 1 From the idle screen, press .

Or,

From the idle screen, press . Press  to scroll to **Recent Calls**. Press  under SELECT.

- 2 Press  to scroll the list of recent calls.

If the number of the recent call is stored in your Phonebook, the name associated with the phone number appears on the Recent Calls list.

For private calls, Talkgroup calls, and numbers stored in your Phonebook, an icon appears to the right of the name or number indicating the Phonebook type of the number used in the call. See “Phonebook Icons” on page 42 for more information about Phonebook types.

For phone calls, an icon appears to the left of the name or number indicating the type of call:

-  indicates an incoming call
-  indicates an outgoing call
-  indicates a missed call. (Missed calls appear on your Recent Calls list only if you have Caller ID.)

Getting Detailed Information About Recent Calls

To get more information about a recent call:

- 1 From the **Recent Calls** screen, press  to scroll to the call you want more information on.

- 2 Press  under VIEW.

Or,

Press  to access the **Rec. Calls Menu**. Then press  to scroll to **View** and press  under SELECT.

The screen that appears displays information such as the name associated with the phone number of the recent call, the phone number, the date, time, and duration of the call.

Storing a Recent Call Number to the Phonebook

To store a number from the Recent Calls list to the Phonebook:

- 1 From the **Recent Calls** screen, press  to scroll to the number you want to store.

- 2 Press  under STORE.

This displays the Phonebook **Entry Details** screen with the **No:** field filled in with the number of the recent call.

- 3 If you want to add more information to the Phonebook entry, follow applicable the instructions in “Adding Phonebook Entries” on page 46.

Calling From the Recent Calls List

See “Making Calls from the Recent Calls List” on page 58.

Deleting Recent Calls

To delete a recent call:

- 1 From the **Recent Calls** screen, press  to scroll to the call you want to delete.

- 2 Press  to access the **Rec. Calls Menu**.

- 3 Press  to scroll to **Delete**.

- 4 Press  under SELECT.

- 5 Press  under YES to confirm the deletion.

To delete all calls on the Recent Calls list:

- | | |
|---|---|
| 1 | From the Recent Calls screen, press  to access the Rec. Calls Menu . |
| 2 | Press  to scroll to Delete All . |
| 3 | Press  under SELECT. |
| 4 | Press  under YES to confirm the deletion. |

Accessing Voice Notes From Recent Calls

You can access the Voice Notes feature from Recent Calls and use it to record spoken messages that you can listen to later.

- | | |
|---|---|
| 1 | From the Recent Calls screen, press  to access the Rec. Calls Menu . |
| 2 | Press  to scroll to Voice Notes . |
| 3 | Press  under SELECT. |

For more information about Voice Notes, see “Voice Notes” on page 123.

Call Timers

Call Timers measure the duration of your phone calls, Private or Group calls, and circuit data use, as well as the number of Kilobytes sent and received by your phone.

The **Call Timers** menu displays the following options:

- **Last Call** — displays the duration of your most recent phone call.
- **Phone Reset** — keeps a running total of your phone call minutes, until you reset it.
- **Phone Lifetime** — displays the total minutes of all your phone calls.
- **Prvt/Grp Reset** — keeps a running total of all of your Private and Group call minutes, until you reset it.

- **Prvt/Grp Lifetime** — displays the total minutes of all your Private and Groups calls.
- **Circuit Reset** — keeps a running total of all of your circuit data use, until you reset it.
- **Circuit Lifetime** — displays the total minutes of all of your circuit data use.
- **Kbytes Reset** — keeps a running total of the number of Kilobytes sent and received by your phone, until you reset it.

To view the **Call Timers** menu:

- | | |
|----------|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Call Timers . |
| 3 | Press  under SELECT. |

To view or reset a Call Timers option:

- | | |
|----------|--|
| 1 | From the Call Timers menu, press  to scroll to the Call Timers option you want to view or reset. |
| 2 | Press  under SELECT. |
| 3 | If the feature does not include an option to reset or you do not wish to reset the option, press  under DONE when you are finished viewing.

To reset a feature, press  under RESET. When the confirmation screen appears, press  under YES to confirm the reset. |

NOTE: The values displayed by Call Timers are not intended for billing purposes.

Hands-Free Speakerphone

The *i85s* phone provides the convenience of a hands-free speakerphone for holding impromptu meetings or placing safer phone calls. The speakerphone option (SPEAKER) is available whenever you are on an active call.

NOTE: During speakerphone operation, you may either speak or listen, but you cannot do both at the same time.

To turn the speakerphone on:

While on an active call, press  under SPEAKER.

While speakerphone is on, **Spkrphone On** appears in the text display area.

To turn the speakerphone off:

Press  under SPEAKER.

Mute

Use the Mute feature to listen to incoming audio without allowing sound from your phone's microphone to be transmitted over the phone line.

To turn mute on:

While on an active call, press  under MUTE.

While mute is on, UNMUTE appears as a display option.

To turn mute off:

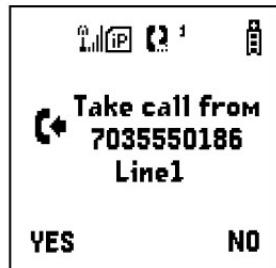

Press  under UNMUTE.

Call Waiting

Call Waiting allows you to receive a second call while you are talking on the phone. You can switch between calls so you never have to miss a call. By default, Call Waiting is always on unless you turn it off for a specific call.

If you're on a call and you receive a second call, you will:

- Hear a tone; and
- See a message on your display informing you of another incoming call.

Accepting Calls

Press under YES. The first call is placed on hold.

Switching Between Calls

When you accept a second call while you are talking on the phone, your display shows the name or number of each call. An icon appears to the left of each name or number indicating that the call on hold or active .

Press under SWITCH to switch between calls.

Declining Calls

Press under NO. If you subscribe to Voice Mail, the call will be forwarded to your Voice Mail box.

Ending the Active Call

Press .

Turning Off Call Waiting

If you do not want to be interrupted during a call, you can turn Call Waiting off prior to making/receiving a call.

- 1 From the idle screen, press . Press to scroll to **Settings**, and press under SELECT.
- 2 Press to scroll to **In Call Setup** and press under SELECT.
- 3 Press to scroll to **Call Waiting** and press under CHANGE.
- 4 Press to scroll to **Off** and press under SELECT.

Call Waiting is now disabled for the next call. It will automatically reset to **On** when you hang up.

Call Hold

When you are on an active call, you can place the call on hold and make a second call.

To place an active call on hold:

- 1 Press to access the **Calls Menu**.
- 2 Press to scroll to **Hold**.
- 3 Press under SELECT.
- 4 If you have not placed a second call, you can resume this call by pressing under RESUME.

To place a second call while the first call is on hold:

Enter the second phone number you want to call and press to place the second call.

To toggle between the two calls:

Press under SWITCH.

To end the active call:

Press . The call on hold becomes active.

Three-Way Calling

Using Three-Way Calling, you can combine two ongoing phone calls into one conversation. While on an active call, you can make a second call and combine the two calls. When you place or receive a phone call, the 3-WAY option appears in the bottom left-hand corner of the display screen.

To make a three-way call:

- 1** Place or receive a phone call.
- 2** While in a call, press to access **Call Menu**.
- 3** Press to scroll to 3-WAY.
- 4** Press under SELECT. The first call will be placed on hold.

- 5** Enter the second phone number you want to call and press to place the second call.

Or, access the number from your Phonebook:

Press and then press to scroll to **Phonebook**.

Press under SELECT.

To place the call, see “Making Calls from the Phonebook” on page 56.

- 6** After you reach the second individual, press under 3-WAY. Both numbers will appear on your display.

Call Forwarding

Nextel’s Call Forwarding features forward calls to the number you designate. The following Call Forwarding options are available:

- **Off** — No calls are forwarded.
- **All Calls** — When this option is turned on, all calls will be sent automatically to a number you specify.
- **Detailed** — Choosing this option enables you to forward calls you missed to different numbers, or to Voice Mail, depending on why you missed each call:
 - **Busy** — your phone is engaged in other activities.
 - **No Answer** — you do not answer. The phone will ring 4 times before forwarding the call.
 - **Unreachable** — your phone is out of coverage or powered off.

NOTE: For you to receive Voice Mail messages, Call Forwarding must be set to Detailed with your Voice Mail access number. Your Voice Mail access number is the first six digits of your 10-digit phone number followed by 6245. This is the default setting.

You can forward Line 1 and Line 2 independently. For more information on using two lines, see “Alternate Line Service” on page 74.

When your phone is set to forward All Calls, one of the following icons appears on the top row of your display screen to indicate the call forwarding option you have chosen:

Icon	Indicates...
¶	Line 1 is active; calls from Line 1 are being forwarded.
¶	Line 1 is active; calls from Line 2 are being forwarded.
¶	Line 1 is active; calls from Line 1 and Line 2 are being forwarded.
¶	Line 2 is active; calls from Line 1 are being forwarded.
¶	Line 1 is active; calls from Line 2 are being forwarded.
¶	Line 2 is active; calls from Line 1 and Line 2 are being forwarded.

Turning On Call Forwarding

1 Press then press to scroll to **Call Forward**.

2 Press under SELECT.

3 At the **Call Forward** screen, highlight the **Forward:** field and press under CHANGE.

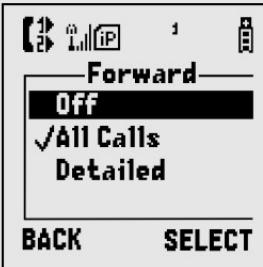

- 4 Press  to scroll to **All Calls** and press  under SELECT.
- 5 Press  to scroll to the **To:** field and press  under CHANGE.
- 6 Enter the desired forwarding number.
- 7 Press  under OK.

Your calls will now be forwarded to the number that you selected.

Turning Off Call Forwarding

- 1 Press  then press  to scroll to **Call Forward**.
- 2 Press  under SELECT.
- 3 In the **Call Forward** screen, press  under CHANGE.
- 4 Press  to scroll to **Off** and press  under SELECT.

Resetting Call Forwarding to Voice Mail

NOTE: You must turn off Call Forwarding before resetting to Voice Mail. See "Turning Off Call Forwarding" on page 72 and complete the steps before resetting to Voice Mail.

For you to receive Voice Mail messages, Call Forwarding must be set to **Detailed** with your Voice Mail access number:

- 1** From the **Call Forward** screen, highlight the **Forward:** field and press  under CHANGE.
- 2** Press  to scroll to **Detailed** and press  under SELECT.
- 3** Press  to scroll to the **If Busy:** field and press  under CHANGE.
- 4** Enter your Voice Mail access number at the **Forward:** screen.
Your Voice Mail access number is the first six digits of your 10-digit phone number, followed by 6245. (For example 7035556245.)
- 5** Press  under OK.
- 6** Repeat step 3 through step 5 for the **If No Answer:** field and the **If Unreachable:** field.
- 7** When finished, press  under EXIT.

NOTE: You can use the Detailed setting to forward calls to other numbers if desired. However, it is recommended that you leave Detailed set to the Voice Mail access number and use the All Calls setting if you wish to forward your calls to another number.

Additional Phone Features

In addition to the standard features that are included for all Nextel Digital Cellular Subscribers, there are also several features that are available for an additional monthly or per-use fee. See the following sections for more information on these services. Contact Nextel Customer Care at 1-800-639-6111 for more information.

Caller ID

If you subscribe to Caller ID, your phone automatically displays the phone number or name (if the 10-digit phone number is stored in your Phonebook) of the person calling (unless blocked by the caller), enabling you to decide whether to take the call or forward it to Voice Mail.

NOTE: Caller ID information is not available on all calls.

Displaying the Caller's Name

A caller's name is displayed if you have entered the person's number into your Phonebook (see "Adding Phonebook Entries" on page 46). Otherwise, the caller's phone number will be displayed.

Maintaining Your Privacy with Per-Call and Per-Line Blocking

Nextel provides two methods to prevent those you call from seeing your number on their own Caller ID displays.

NOTE: Your Nextel phone number cannot be blocked from calls made to 911, 800, 855, 866, 877, or 888 phone numbers.

Per-Call Blocking

Blocks delivery of your phone number to other Caller ID units for a single phone call.

To set:

Press before dialing the call.

Per-Line Blocking

Permanently blocks delivery of your phone number on every call you make. You must order this feature by calling Nextel Customer Care at 1-800-639-6111.

To set:

Pressing before the call to disable this feature on a per-call basis.

Alternate Line Service

As an Alternate Line customer, you will be given a separate phone number for each line. With alternate lines, you can separate business and personal calls, or designate one as a priority line.

Nextel Mobile Messaging and Nextel Wireless Web services use the Line 1 phone number. You only need to subscribe to Caller ID or Voice Mail once — the service will be available on both lines. Forwarding Line 2 to Line 1 will send Line 2 incoming calls directly to Voice Mail without ringing.

The following settings are independent for each phone line. When you enable one of these settings, it applies only to the active line:

- Call Forwarding
- Ring/Vibe
- In Call Setup
- Call Timers
- Auto Answer

Selecting the Alternate Line

From the idle screen:

- 1 Press , then press  to scroll to **Settings**. Press  under SELECT.

- 2 Press  to scroll to **Phone Setup**. Press  under SELECT.

- 3 With the current line highlighted, press  under CHANGE.

- 4 Press  to scroll to the desired line and press  under SELECT.

Receiving Calls on Your Alternate Line

You can receive calls on either line, regardless of the active line setting. The screen displays **Line1** or **Line2** to indicate which line the call is being received on.

Call Restrictions

You can prevent your phone from making or receiving specific types of calls. Nextel currently offers three types of Call Restrictions:

- no long distance calls allowed
- no incoming calls
- no outgoing calls (except 911)

Call Customer Care at 1-800-639-6111 for more information.

Directory Assistance

Nationwide White Page Listings, Yellow Page Listings and Nationwide Call Completion are available by dialing 411 or (area code)-555-1212.

Live Operator Assistance

You will be assisted by friendly and knowledgeable operators in your area.

White Page Listings

You can request the telephone number for any person, business or government agency in the continental United States and Hawaii.

Yellow Page Listings

By providing basic information such as city and type of business, you can find a company anywhere in the continental United States and Hawaii.

Nationwide Call Completion

Operators will connect you to the listing you requested. There are no additional charges beyond normal airtime costs for this service (airtime will count against your bucket of minutes; overage charges will apply if the bucket of minutes has been exhausted). If you prefer, the operator will stay on the line while connecting to the number.

In the event you need another listing, you can return to an operator at any time during the call by pressing **•***. By pressing **#**, you can hear the phone number dialed.

Nextel Voice Mail

Nextel Voice Mail is a flexible, easy-to-use system that takes messages when you're not available — so you never miss an important call.

This section includes:

Setting Up Your Voice Mail Box	Page 77
Receiving Voice Mail Messages	Page 78
Using Voice Mail	Page 79
Advanced Voice Mail Features	Page 84
Nextel Voice Mail Tree	Page 92

This section covers the most commonly used Voice Mail features. Once you log into Voice Mail, there are a number of innovative features you can access. They are also covered in this section. After you access Voice Mail, an automated system tells you each menu option and which button to press to make a menu selection.

NOTE: For you to receive Voice Mail messages, Call Forwarding must be set to Detailed with your Voice Mail access number. This is the default setting. See “Call Forwarding” on page 70 for more information.

Setting Up Your Voice Mail Box

You must set up your Voice Mail box before you can retrieve messages. The following steps will tell you how to setup your mailbox. However, before proceeding you may want to read “Recording Your Active Greeting” on page 83, which provides information you may want to include in your greeting:

- 1 Using your Nextel phone, dial your 10-digit Nextel Personal Telephone Number (PTN). For example: 7035557777.

If you are calling from a phone other than your *i85s* phone, dial your 10-digit Nextel Personal Telephone Number (PTN). When you hear the greeting, press * to access your Voice Mail box.
- 2 The system will prompt you to **Enter your password**. Enter the last seven digits of your Nextel Personal Telephone Number.(For example: 5557777.) This is your temporary password.
- 3 Follow the tutorial to:
 - Create a new four- to seven-digit password (see “Changing Your Password” on page 82).
 - Record your name (see “Recording Your Name” on page 83).
 - Record a greeting (see “Recording Your Active Greeting” on page 83).
- 4 When the system says **Enjoy using Nextel Voice Mail**, your mailbox is set up.

Receiving Voice Mail Messages

New Message Indicators

When you receive a new message:

- **New VoiceMail Message** will display on the screen.

- Your phone will alert you every 30 seconds until you press  under CALL or  under EXIT.

Transferring Calls to Voice Mail

Press  or press  under NO while your phone is ringing to transfer incoming calls directly to Voice Mail.

Using Voice Mail

Logging Into Voice Mail

To log into Voice Mail, first access the Message Center.

If MESG is one of your display options:

From the idle screen, press  under MESG.

If MESG is not one of your display options:

- 1 From the idle screen, press .
- 2 Press  to scroll to **Messages**.
- 3 Press  under SELECT.

The **Message Center** screen displays numbers of new and total Voice Mail messages.

From the **Message Center** screen, log into Voice Mail:

- 1 Press to scroll to **Voicemail**.
- 2 Press under **CALL** to log into Nextel Voice Mail. **Calling** displays as you are connected to the network.

NOTE: If you hear a message that says, "Enter the phone number of the subscriber you are trying to reach," enter your own 10-digit Nextel Personal Telephone Number. When the greeting plays, press to receive a password prompt.
- 3 When prompted, enter your password.

NOTE: You must receive a message before you can access Voice Mail for the first time from your i85s phone. (Tip: You can leave yourself a message.)

Main Voice Mail Menu

You are at the main Voice Mail menu when you hear the options listed below.

- To play your messages, press .
- To record a message, press .
- To change your greeting, press .
- To access your personal options press .

If you press ****** while you are in a sub-menu, you will go to the previous menu. If you press *******, you will go to the Main Voice Mail menu.

From the main Voice Mail menu, press **#** to exit Voice Mail. At any time, you may simply hang up.

Playing Messages

When you receive a new Voice Mail message, you can either listen to it immediately or later. Press **(•)** under CALL to listen now or press **(•)** under EXIT to listen later.

Once you have selected to play your messages from the main menu, Nextel Voice Mail will immediately start playing your messages. You have several options available during and after the playing of each message.

Options available while listening to your messages:

Replay previous six seconds.	Press 1rd
Rewind to beginning of message.	Press 1st then 2nd
Pause/continue the current message.	Press 2nd
Fast forward 6 seconds.	Press 3rd
Fast forward to end of message.	Press 3rd then 4th
Play the date and time stamp.	Press 5th then 6th

Options available while a message is playing or after it has played:

Copy the message to another subscriber. (See "Recording, Copying and Replying to Messages" on page 86.)	Press 6th
Delete the message.	Press 7th
Reply to a message.	Press 8th
Save the message.	Press 9th
Skip to the next message.	Press #

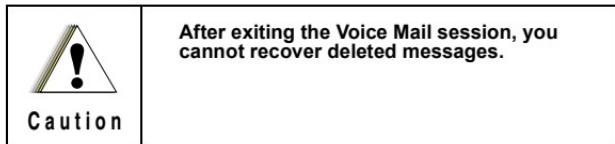

Saving and Deleting Messages

While a message is playing or after you have finished listening to it, you can save it or delete it. To save a message, press **9999**. To delete a message, press **0000**. (See “Automatic Playback” on page 86 to have messages automatically saved.)

Messages that are not saved or deleted remain in your mailbox as new messages. All messages are automatically deleted after 30 days.

Recovering Deleted Messages

To retrieve deleted messages, press ***** then **0**. This option only applies to the current Voice Mail session. If you hang up, the messages will be permanently deleted.

Changing Your Password

To change your current password:

- 1 From the main Voice Mail menu, press **4#** to access Personal Options.
- 2 Press **4#** to access Personal Preferences.
- 3 Press **1** to modify password.
- 4 Enter your new password. This password must be all numbers. It must be 4 to 7 digits long.
- 5 Press ***#*** to return to the main menu.

NOTE: If you forget your password, your account manager can reset it for you at nextel.com. Or, call Customer Care at 1-800-639-6111.

 WARNING	For security purposes, it is recommended that you do not choose sequential or repeated digits like 1-2-3-4 or 5-5-5-5 for your password.
---	---

Recording Your Name

When you send, reply to, or copy a message, your name response precedes the message. To record or re-record your name at any time:

- 1** From the main Voice Mail menu, press **4^{opt}** to access Personal Options.
- 2** Press **4^{opt}** to access Personal Preferences.
- 3** Press **3^{opt}** to access the Record Your Name option.
- 4** Press **2^{opt}** to record your name.
- 5** Press *** * *** to return to the main menu.

Recording Your Active Greeting

Through Nextel Voice Mail service, there are a number of ways in which people can reach you. You may want to include one or all of the following options in your greeting so that callers will know they are available.

- Press 1 to send a numeric message.
- Press 2 to send an operator assisted message. (This option is available only if you are a subscriber of Operator Assisted Messaging. Contact Nextel Customer Care for more information.)
- Press # to skip the greeting and record a message immediately.

Also, in your greeting, you should tell callers to press the pound sign (#) after they have finished recording. This will prompt Nextel Voice Mail service to play the list of menu options such as replay message, transfer to an operator, and additional options.

Sample Greeting

Below is a sample greeting. You can add the above options as you see fit.

"Hello, you've reached _____. I'm sorry I missed your call. Please leave a message at the tone, and I'll return your call as soon as possible. If you would like to bypass this greeting in the future, press pound. Thank you for calling."

To record or alter your greeting at any time:

- | | |
|---|--|
| 1 | From the main Voice Mail menu, press to change your greeting. |
| 2 | Press to play, press to record or re-record, or press to delete your active greeting. |
| 3 | Record your greeting and press when you have finished. |
| 4 | Press to return to the main menu. |

Advanced Voice Mail Features

Multiple Greetings

Nextel Voice Mail service allows you to have up to five different greetings. You can designate which greeting will be your active greeting at any given time. For example, instead of your regular greeting, you may wish to activate a different greeting for days when you are out of the office or on vacation.

The greeting that was recorded during your initial Voice Mail box setup is Greeting 1. This is your default active greeting.

Record Additional Greetings

To record additional greetings:

- | | |
|---|---|
| 1 | From the main Voice Mail menu, press to access the Greetings menu. |
| 2 | Press to modify greetings. |
| 3 | Enter the greeting number you wish to create or modify. |
| 4 | Press to record a greeting. |
| 5 | Record your greeting and press when you have finished. |
| 6 | Press to return to the main menu. |

Select Your Active Greeting

To select your active greeting:

- 1** From the main Voice Mail menu, press  to access the Greetings menu.
- 2** Press  to select another greeting to be active.
- 3** Enter the number of the greeting that you would like to be active.
- 4** The system will confirm your active greeting number
- 5** Press  to play your active greeting.
- 6** Press  to return to the main menu.

Greetings Schedule

You can choose to have your greetings automatically activated based on a pre-determined time schedule. By activating the Greeting Schedule, Greetings 1, 2 and 3 will automatically play according to the time schedule listed below.

Greeting 1	Evenings and Weekends	5:00 pm -- 7:59 am, Monday -- Friday 24-hours, Saturday and Sunday
Greeting 2	Weekday Mornings	8:00 am -- 11:59 am Monday -- Friday
Greeting 3	Weekday Afternoons	Noon -- 4:59 pm Monday -- Friday

Activating Your Greeting Schedule

To activate the greeting schedule:

- 1** From the main Voice Mail menu, press  to access the Greetings menu.
- 2** Press  to activate your greeting schedule.
- 3** Press  to return to the main menu.

Automatic Playback

By default, the playback mode of your Voice Mail service is set to Normal. Nextel's Automatic Playback feature automatically plays and saves new messages when you log in. To activate Automatic Playback:

- 1 From the main Voice Mail menu, press **4^{abc}** to access Personal Options.
- 2 Press **4^{abc}** to access Personal Preferences.
- 3 Press **2^{abc}** to access Playback Preferences.
- 4 Press **2^{abc}** to switch between Automatic and Normal Playback.
- 5 Press ***#*#** to return to the main menu.

Changing the Playback Order of Messages

With Nextel Voice Mail service, you can select the order in which you want unheard messages to be played. You may listen to the last received message first, or you may listen to the first received message first. To select the order in which new messages should be played:

- 1 From the main Voice Mail menu, press **4^{abc}** to access Personal Options.
- 2 Press **4^{abc}** to access Personal Preferences.
- 3 Press **2^{abc}** to access Playback Preferences.
- 4 Press **1^{bc}** to switch between the playback orders.
- 5 Press ***#*#** to return to the main menu.

Recording, Copying and Replying to Messages

These functions allow you to record and send, reply to, or copy a message to an assigned destination address or Group List number.

If you record a complete or partial message, but do not send it, Nextel Voice Mail service will refer to this message as an "in preparation" message. (Before sending messages you may want to see "Delivery Options" on page 87.)

To record and send a message:

- 1 From the main Voice Mail menu, press **2^{abc}** to access Personal Options.
- 2 Record your message and press **#** to end the message.
- 3 Press **9^{msg}** at the prompt to indicate that you want to send the message or press **5^{hi}** for Delivery Options.
- 4 Enter the mailbox number and/or group list number(s). (A mailbox number is the 10-digit Nextel Personal Telephone Number of a Nextel customer. The name of the recipient plays if it is recorded.)
- 5 Press **#** to send.
- 6 Press ***#*#** to return to the main menu.

NOTE: You can only send messages using this method to Nextel users in your home market.

Delivery Options

After you have created a message, you can assign the message to a category before you send it. Below is a list of the options that can be applied to a message:

Urgent	Recipient will hear this message before other messages.
Private	Recipient cannot copy the message to another mailbox or phone number.
Notification of Non-Delivery	You will be notified if the recipient has not listened to your message by a certain date and time.
Future Delivery	You can specify a time and date (up to three months in advance) for the message to be delivered. (See "Time and Date Charts" on page 90.) Important: Once a message has been sent for future delivery, it cannot be retrieved or deleted.

To set a special delivery option:

- 1 After recording your message but before sending it, press **6^{abc}** for Delivery Options.
- 2 Press the number that corresponds with the desired delivery option:
 - Press **1^{abc}** for Urgent.
 - Press **2^{abc}** for Private.
 - Press **3^{abc}** for Notification of Non-Delivery. At prompt, specify time and date.
 - Press **4^{abc}** for Future Delivery of Messages. At prompt, specify time and date.
 - Press **5^{abc}** to send the message immediately.
- 3 The list of options will be presented again. Select an additional option or press **6^{abc}** to send the message.
- 4 Enter the destination mailbox or Group List number of the recipient(s).
- 5 Press **#** to send.
- 6 Press ***#*#** to return to the main menu.

Working With Group Lists

The Group List feature enables you to create a list and assign it a unique name. Then, you can add mailbox numbers, group lists or individuals — by name — to the list. Once you create a list you can send a voice message to everyone on the list by simply entering the group list number. You can have up to 40 group lists. Each list can hold up to 50 addresses.

Creating Group Lists

To set up a Group List:

- 1 From the main Voice Mail menu, press **4^{abc}** to access Personal Options.
- 2 Press **2^{abc}** to access your Group Lists.
- 3 Press **2^{abc}** to create a Group List.

- | | |
|----------|--|
| 4 | Enter the one- or two-digit group list number and press # . |
| 5 | Record a name for the list and press # . |
| 6 | Select group members by mailbox number, Group List, or name. |
| 7 | Press # to save all entries added to the list. |
| 8 | Press *#*# to return to the main menu. |

Modifying a Group List

- | | |
|----------|---|
| 1 | From the main Voice Mail menu, press 4^{opt} to access Personal Options. |
| 2 | Press 2^{abc} to access Group Lists. |
| 3 | Press 4^{opt} to modify a Group List. |
| 4 | Enter the number of the Group List you want to modify. |
| 5 | Press 1[*] to add a new recipient. |
| 6 | Press # to save your changes. |
| 7 | Press *#*# to return to the main menu. |

Deleting a Group List

- | | |
|----------|---|
| 1 | From the main Voice Mail menu, press 4^{opt} to access Personal Options. |
| 2 | Press 2^{abc} to access Group Lists. |
| 3 | Press 3^{def} to delete a Group List. |
| 4 | Enter the number of the Group List you want to delete. The system will play the name of the Group List. |
| 5 | Press # to delete the list. |
| 6 | Press *#*# to return to the main menu. |

Message Forwarding

This feature allows you to program your phone to automatically forward incoming messages to another mailbox. There are three types of forwarding: Immediate, Silent and Delayed. They are discussed below:

- **Immediate Forwarding** - Caller is notified that the message will be forwarded.
- **Silent Forwarding** - Caller is not notified that the message will be forwarded.
- **Delayed Forwarding** - If a caller's message is not retrieved after a certain amount of time, the message will automatically be forwarded to another mailbox or telephone number.

1	From the main Voice Mail menu, press 4^{voicemail} to access Personal Options.
2	Press 5^{voicemail} to modify Forwarding Options.
3	Select the applicable option below: <ul style="list-style-type: none">• To create a forwarding number, press 2^{abc}.• If you have already created a forwarding number, press 2^{abc} to modify the number.• To enable or disable Message Forwarding, press 3^{def}.• To change the forwarding type, press 4^{ghi}.<ul style="list-style-type: none">• Press 1^{jkl} for Immediate Forwarding• Press 2^{abc} for Silent Forwarding• Press 3^{def} for Delayed Forwarding
4	Press *4 *4 to return to the main menu.

Time and Date Charts

Time and Date Charts can be referenced for specific tasks throughout Nextel Voice Mail service.

24-hour Clock

Nextel Voice Mail service uses a 24-hour clock:

NOTE: To compute the 24-hour clock for pm, add 1200.

Below is a list of hours translated into 24-hour time:

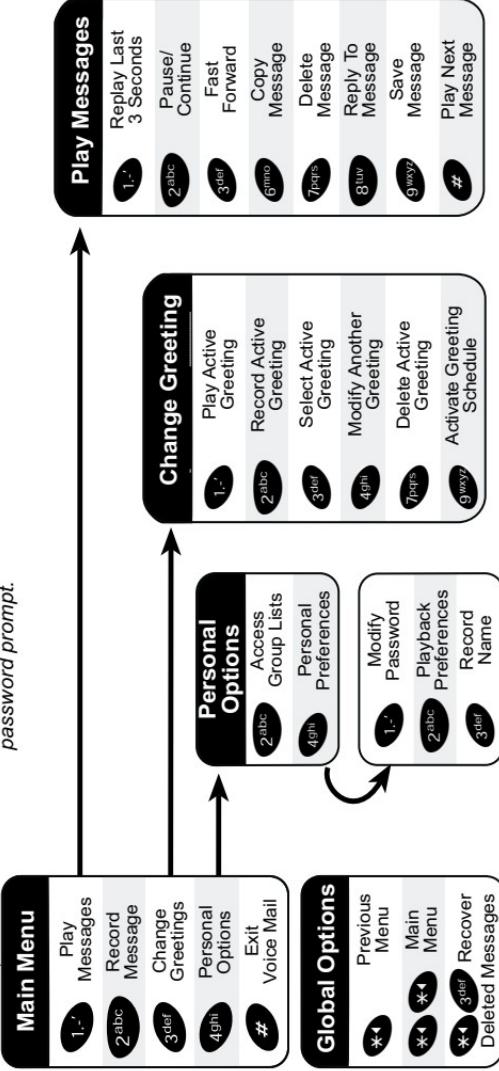

12-hour Clock	12:00 am	4:00 am	8:00 am	12:00 pm	4:00 pm	10:00 pm
24-hour Clock	0000	0400	0800	1200	1600	2200

Dates

All dates must have 4 digits in the MM/DD format (2 digits for the month and 2 digits for the day). January is 01, February is 02, etc. The first day of the month is 01, the second day of the month is 02, etc. For days of the week, Sunday is 1, Monday is 2, etc.

Nextel Voice Mail Tree

Call Your Own 10-Digit Phone Number And Enter Your Password When Prompted

Messages

Your Nextel phone offers three choices in Messaging Services — Voice Mail, Text and Numeric Messaging, and Nextel Two-Way Messaging.

Nextel Voice Mail is a flexible, easy-to-use system that takes messages when you're not available — so you never miss an important call!

Nextel Mobile Messaging helps keep you in touch with co-workers and customers, regardless of where you travel on the Nextel National Network:

- Text and Numeric Messaging allows others to send you a message that is displayed directly on your Nextel phone.
- Two-Way Messaging uses the flexibility and convenience of the Nextel Wireless Web to provide immediate contact with the people important to you, even when you can't make or take a call. Two-Way Messaging allows you to send, receive, and respond to text messages quickly and discreetly. Please see "Two-Way Messaging" in the *Nextel Wireless Web User's Guide* for more information.

The main topics covered in this section are listed below:

Message Center	Page 94
Nextel Voice Mail	Page 94
Text and Numeric Messaging	Page 94
Nextel Two-Way Messaging	Page 100

Message Center

The Message Center enables you to access all messaging services through one screen.

To access the Message Center:

If MESG is one of your display options:

From the idle screen, press  under MESG.

If MESG is not one of your display options:

- | | |
|----------|--|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Messages . |
| 3 | Press  under SELECT. |

The **Message Center** screen displays the number of messages you have in each message service — **Voicemail** (Voice Mail), **Text Msgs** (Text and Numeric Messages), and **NetMail** (Two-Way Messaging).

To access any message service:

- | | |
|----------|--|
| 1 | From the Message Center screen, press  to scroll to the message service you want to access. |
| 2 | Press  under the display option on the right. This option varies depending on the message service selected. |

Nextel Voice Mail

See “Nextel Voice Mail” on page 77.

Text and Numeric Messaging

The main topics covered in this section are as follows:

Text and Numeric Messaging Features	Page 95
Notification of New Messages	Page 96
Accessing New Messages	Page 96
Sending a Message	Page 97

Text and Numeric Messaging Features

With Nextel Text and Numeric Messaging, Nextel will:

- Allow numeric messages up to 20 characters in length and text (alpha) messages up to 140 characters in length.
- Accept your messages even if you are unavailable, if your phone is turned off, or if you are busy on another call.
- Alert you of a new text or numeric message, even if you are on another call.
- Store a message if you are using Nextel Direct Connect and deliver it upon completion of the call.
- Store the message if you are outside of the coverage area and deliver it as soon as you are back in a coverage area.
- Attempt continuous delivery of messages until successful, for up to 7 days.

With Nextel Text and Numeric Messaging, your Nextel phone will:

- Refer to text and numeric messages as Text Messages.
- Stamp the message with the time and date the message was left.
- Store up to 16 messages at a time, that will remain until you delete them.

NOTE: “Mail Waiting, Memory Full” displays when 16 message registers are full. (Messages must be erased before you can receive others.)

- Allow for “Auto Call Back” of a phone number that is included within a message, by pressing . If the message contains two phone numbers, Auto Call Back will dial the last number.

Notification of New Messages

When you receive a new message:

- **New Text Message** will display on the screen.

- Your phone will alert you every 30 seconds until you press  under READ or  under EXIT.

Accessing New Messages

When you receive a message, you can view it immediately or later:

View a Message Immediately

- | | |
|----------|---|
| 1 | Press  under READ. The message displays. |
| 2 | If the message fills more than one screen, use  to scroll through the rest of the message. |
| 3 | Press  under SAVE to save the message.
Or,
Press  under DELETE to delete the message. |

Viewing a Message Later

Press  under EXIT. The  icon will appear on the second line of the idle screen to remind you that you have a stored message.
--

Viewing Stored Messages

- 1** In the **Message Center** screen, press  to scroll down to **Text Msgs**. The number of new messages and the total number of messages are displayed.
- 2** Press  under **SELECT**. The **Text Msg Inbox** screen appears.
- 3** Press  to scroll to the message you want to read and press  under **READ**.
- 4** If the message fills more than one screen, use  to scroll through the rest of the message.
- 5** Press  under **SAVE** to save the message.
Or,
Press  under **DELETE** to delete the message.

Sending a Message

Nextel's Messaging feature includes four options: Web Messaging on nextel.com, Email Messaging, Numeric Messaging, and Operator Assisted Messaging. To use these features, review the following information.

Web Messaging on nextel.com

Nextel's Web Messaging enables you to send a message to yourself, someone else, or a group of Nextel customers. It also includes a "Schedule For Later" option, which allows you to send yourself reminders. To use Web Messaging, follow the steps below:

- 1** From your computer's Internet browser, go to nextel.com and click **Send a Message**. The browser automatically opens to **Send an Individual Message**.

- 2** Address your individual or group message:
- To send a message to an individual or yourself, type the applicable 10-digit Nextel phone number (for example, 7035551234) in the **To:** field.
 - To send a Group Message, select **Group Messaging**. In the **To:** field, type the first individual's 10-digit Nextel phone number. Then click the **add** button. The information is inserted in a new window and the **To:** field is cleared so you can enter another 10-digit Nextel phone number. You can send a Group Message to up to 20 Nextel users at one time.
- 3** Click on **Create Message**.
- 4** Fill in the optional **From:** and **Subject:** fields if desired.
- 5** Type your message in the message box. You can send text messages up to 280 characters in length, sent as two sequential 140-character messages.
- NOTE:** You can click on the “Count Characters” button to have the system tell you the number of characters in your message. The total includes characters from the “To:”, “From:”, and “Subject:” fields as well as system-generated characters.
- 6** If you would like to receive confirmation of delivery, enter your email address in the **Confirmation** section.
- 7** Send your message.
- To send the message now, click **Send Message**.
- NOTE:** The “Clear” button removes the information from every field.
- To schedule the messages for future delivery (up to 6 months in advance), click on **Schedule For Later**. A new screen appears with the following fields: **Month**, **Day**, **Year**, **Hour**, **Min.** (**Minutes**), **AM/PM** and **Time Zone**. Click the down arrows at the end of each field to select the desired month, day, etc. Then click **Submit the Message**.
- NOTE:** The “Close Window” button clears the screen without scheduling the message.

- 8** A new browser page opens with a copy of your message, the recipient's telephone number and a Claim Number. You can write down the Claim Number to check on the delivery status later or check the status immediately by clicking on **Check Status**.

Checking Delivery Status

To find out whether or not a message was delivered (and if so, when):

- | | |
|----------|---|
| 1 | Visit Nextel's home page at nextel.com . |
| 2 | Select Wireless Web . |
| 3 | Select Mobile Messaging . |
| 4 | Select Message Status . |
| 5 | Enter the Claim Number and the Recipient Telephone Number. |
| 6 | Click on the Check Status button. The system will display the requested information. |

Email Messaging

From any email account, type the 10-digit phone number of a Nextel customer in the **To** field and add **@messaging.nextel.com** (for example, 7035551234@messaging.nextel.com). The entire message can be up to 140 characters.

Numeric Messaging

- The caller must press “1” during your Voice Mail greeting.
- Only numeric messages can be sent.

Operator Assisted Messaging*

- The caller can press “2” during your Voice Mail greeting. Or, call 1-800-NEXGRAM (1-800-639-4726). Outside of the U.S., call 1-858-279-8495.
- A text message can be sent immediately or for future delivery.
- The operator will send the message.

* *The Operator Assisted Messaging feature is required. There is also an additional charge for each message sent. For more information you can visit Nextel at nextel.com or call 1-800-639-6111 or dial 611 from your Nextel phone.*

Nextel Two-Way Messaging

Your i85s phone refers to Two-Way Messages as Net Mail.

With Two-Way Messaging, you can:

- Receive messages (up to 500 characters in length) with built-in replies and respond to them at the touch of a button.
- Create and store your own frequently used responses that let you send informative answers without keying in text.
- Send messages to one individual from your phone or contact several at once from any email system or nextel.com.
- Respond to messages when you’re in a meeting or noisy location.

To activate this service, call Nextel Customer Care at 1-800-639-6111 or dial 611 from your Nextel phone. For additional information on how to use this service, see “Two-Way Messaging” in the *Nextel Wireless Web User’s Guide*.

Direct Connect

Nextel Direct Connect®

Nextel Direct Connect is a digital two-way radio feature that allows you to communicate with your co-workers and clients for a fraction of the cost of traditional cellular calls.

You may want to talk to a co-worker right away, but you don't want to page that person or leave a lengthy message. With Nextel Direct Connect's Private Call feature, you can contact them instantly.

Or, maybe you need to communicate a last-minute schedule change to your sales people. It's easy with Nextel Direct Connect's Group Call. This digital two-way radio feature lets you contact all of them at once!

In addition, Nextel has created Nextel Business Networks®, which allows you to communicate with individuals outside your company. These Networks link Nextel customers in similar industries or geographic regions. So, if you need to reach a client, vendor, or contractor instantly, work smarter by joining the Nextel Business Networks. For more information, call 1-888-NEXTEL2 (1-888-639-8352).

NOTE: Nextel Direct Connect® is only available in your home calling area.

This section includes everything you will need to know to take advantage of Nextel Direct Connect (two-way radio) service:

Private Call	Page 101
Call Alerts	Page 104
Group Call	Page 107

Private Call

There are two ways to reach an individual using Nextel Direct Connect. You can enter the person's Private ID number then press the Push-To-Talk (PTT) button. Or, you can store the person's name and Private ID number, then recall the number from your Phonebook. Whether you dial the person's Private ID directly or store it in your Phonebook, you must have the individual's Private ID to use Nextel Direct Connect. To learn how to store names and numbers, see "Phonebook" on page 41.

USER TIP: To find out your own Private ID number, see "My Information" on page 28.

Making a Private Call from the Keypad

- | | |
|---|---|
| 1 | Enter the Private ID of the person you are trying to call. |
| 2 | Press and hold the PTT button on the side of the phone. Begin talking after the phone emits a chirping sound. |
| 3 | Release the PTT button to listen. |

Making a Private Call from the Phonebook

If you have stored a person's Private ID in your Phonebook, you can use your Phonebook to make a Private call to that person:

- | | |
|---|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to the Phonebook . Press  under SELECT. |
| 3 | From the Phonebook screen, press  to scroll through the names until the desired name is highlighted. |
| 4 | Press and hold the PTT button on the side of the phone. Begin talking after the phone emits a chirping sound. |
| 5 | Release the PTT button to listen. |

Making a Private Call from the Recent Call List

- | | |
|---|--|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to the Recent Calls . Press  under SELECT. |
| 3 | From the Recent Calls screen, press  to scroll through the names and numbers until the desired name or Private ID number is highlighted. |

- | | |
|----------|---|
| 4 | Press and hold the PTT button on the side of the phone. Begin talking after the phone emits a chirping sound. |
| 5 | Release the PTT button to listen. |

Making Calls Using Voice-Activated Dialing

If you have recorded a voice name for a Private ID number in your Phonebook (see “Voice Names” on page 43), you can use this feature to call the number.

- | | |
|----------|--|
| 1 | From the idle screen, press and hold  on the side of your phone until the Say Name Now screen appears. |
| 2 | Speaking into the microphone, say the voice name assigned to the Private ID you want to call. |
| 3 | Your phone will play the name back to you. |

Press the PTT button.

USER TIP: If you have difficulty making phone calls using a voice name, try assigning a longer voice name to the number. For example, if the voice name “Joe” fails to place a call to Joe Smith’s number, try assigning the voice name “Joe Smith” to the number.

Receiving a Private Call

When you receive a Private call, your phone emits a chirping sound and **Private in Use** appears on the screen. The Private ID or the name of the caller (if stored in your Phonebook) displays. Press and hold the PTT button to talk and release it to listen.

Storing Private IDs

For information on how to store Private ID numbers to your Phonebook, see “Adding Phonebook Entries” on page 46.

For information on how to quickly store Private ID numbers, see “Storing Numbers Fast” on page 50.

Call Alerts

You can send a call alert, which lets recipients know that you would like to talk with them. When you send an alert, the recipient will receive a series of beeps and your name or Private ID will appear on the display.

Placing a Call Alert from the Keypad

- 1 Enter the Private ID of the person you want to call.
- 2 Press  under ALERT. The **Ready to Alert** screen displays.
- 3 Press and hold the PTT button until **Alert Successful** displays. The alert sounds intermittently until the user of the phone answers, queues, or clears the alert.

Placing a Call Alert from the Phonebook

- 1 From the idle screen, press .
- 2 Press  to scroll down to **Phonebook**. Press  under SELECT.
- 3 From the **Phonebook** screen, press  to scroll to the Phonebook entry for the person you want to alert.
- 4 Press  under ALERT. The **Ready to Alert** screen appears.
- 5 Press and hold the PTT button until **Alert Successful** displays. The alert sounds intermittently until the user of the phone answers, queues, or clears the alert.

Ready to Alert Screen

Ready to Alert is used to confirm your request for the alert and to prompt you to push the PTT button:

- If you press the PTT button, the call alert is sent, and the phone displays the **Recent Calls** screen.

- For call alerts placed from the keypad, pressing  under CANCEL causes the phone to return to the **Dial** screen with the previously entered number displayed.
- For call alerts placed from the Phonebook, pressing  under CANCEL causes the phone to return to the **Phonebook** screen.
- If you do nothing, the phone will revert to the idle screen.

Receiving Call Alerts

When you receive a call alert, your phone emits a chirp and displays the name or number of the caller. You can answer, queue, or clear the call alert:

- To answer a call alert, press the PTT button.
- To queue a call alert, press  under QUEUE.
- To clear the call alert, press  under CLEAR.

Call Alert Queue

Call alert queuing enables you to save call alerts in a list, or queue. To store a call alert in the call alert queue, press  under QUEUE when you have received an incoming call alert.

Accessing the Call Alert Queue

- | | |
|----------|--|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Call Alert . |
| 3 | Press  under SELECT. The Call Alert Queue screen displays. |

Viewing Call Alert Date and Time

To find out the date and time a call alert was received:

- | | |
|----------|---|
| 1 | From the Call Alert Queue screen, press  to scroll to the desired call alert. |
| 2 | Press  to access Call Alert Menu . |

3 Press  to scroll to **View**.

4 Press  under SELECT.

Sorting Call Alerts

To sort your call alerts by the order they were received:

- 1 From the **Call Alert Queue** screen, press  to access **Call Alert Menu**.
- 2 Press  to scroll to **Sort By**.
- 3 Press  under SELECT.
- 4 Press  to scroll to **First on Top** or **Last on Top**.
- 5 Press  under SELECT.

Responding to a Call Alert From the Queue

- 1 From the **Call Alert Queue** screen, press  to scroll to the call alert you want to respond to. You can respond by sending a call alert or placing a Private call.
- 2 To send a call alert, press  under ALERT and then press the PTT button.

Or,

To place a Private call, press the PTT button.

The call alert will be removed from the queue.

Deleting a Call Alert From the Queue

To delete a call alert from the queue:

- 1 From the **Call Alert Queue** screen, press  to scroll to the entry you want to delete.
- 2 Press  to access **Call Alert Menu**.
- 3 Press  to scroll to **Delete**.
- 4 Press  to SELECT.
- 5 When the confirmation screen appears, press  under YES to delete the entry.

To delete all call alerts from the queue:

- 1 From the **Call Alert Queue** screen, press  to access **Call Alert Menu**.
- 2 Press  to scroll to **Delete All**.
- 3 Press  to SELECT.
- 4 When the confirmation screen appears, press  under YES to delete all call alerts.

Group Call

In a Group call, you can communicate instantly with a group of people that you have previously set up as a Talkgroup. Your Nextel Sales Representative or Nextel Customer Care must set up your Talkgroups by providing you with a Talkgroup number for each Talkgroup. After you have the number, you can assign each Talkgroup number a name and store it in your phone (see “Naming a Talkgroup” on page 108).

Talkgroups appear on your display as numbers or programmed names such as **SALES TEAM** or **Talkgrp 5**. Your phone can store up to 30 Talkgroups. You can initiate or participate in Group calls for Talkgroups that have been created for you and that are stored in your Phonebook.

Naming a Talkgroup

- 1 From the idle screen, press .
- 2 Press  to scroll to **Phonebook**.
- 3 Press  under SELECT.
- 4 Press  to scroll to **New Entry**.
- 5 Press  under SELECT. The **Entry Details** screen displays.
- 6 Enter the information as you would any other Phonebook entry. (See “Adding Phonebook Entries” on page 46.) When you get to **Type**, make sure that you select **Talkgroup**.
- 7 Enter the Talkgroup number. For example: 127.
- 8 When you have completed the **Entry Details**, press  under DONE.

Making a Group Call from the Keypad

- 1 Press  and then enter the Talkgroup number of the group that you want to call.
- 2 Press and hold the PTT button on the side of the phone, wait for the chirp, and speak. The phones of individuals in the Talkgroup will emit a chirping sound to alert them that someone is calling.
- 3 Release the PTT button to listen.

Making a Group Call from the Phonebook

- 1 From the **Phonebook** screen, press  to scroll to the name of the Talkgroup you want to call.

- 2** Press and hold the PTT button on the side of the phone, wait for the chirp, and speak. The phones of the people in the Talkgroup will emit a chirping sound to alert them that someone is calling.
- 3** Release the PTT button to listen.

Making a Group Call from the Recent Calls List

- 1** From the **Recent Calls** screen, press  to scroll to the name of the Talkgroup you want to call.
- 2** Press and hold the PTT button on the side of the phone, wait for the chirp, and speak. The phones of individuals in the Talkgroup will emit a chirping sound to alert them that someone is calling.
- 3** Release the PTT button to listen.

Receiving a Group Call

When you receive an incoming Group call, your phone emits a chirp.

To respond to a Group call:

- 1** Wait for the caller to finish speaking.
- 2** Press and hold the PTT button to talk. Release the PTT button to listen.

Group-Silent Programming

Group-Silent programming enables you to silence incoming Group alerts and communication.

Turning Group-Silent On or Off

- 1** From the idle screen, press .
- 2** Press  to scroll to **Settings**. Press  under SELECT.

-
- | | |
|----------|--|
| 3 | Press  to scroll to Tkgrp Settings . Press  under SELECT. |
| 4 | With the Silent field highlighted, press  under CHANGE. |
| 5 | Press  to scroll to On or Off . |
| 6 | Press  under SELECT. |

Datebook

The Datebook is a calendar in your *i85s* phone that enables you to schedule and organize events, such as appointments and meetings. Schedules can be created and viewed for specific days, and reminder alarms can be set so that you never miss important events.

You can view upcoming events by week or by day. The Datebook stores and manages 250 events over a 13-month period (12 months ahead and 1 month back).

NOTE: The time and date format and the year used in Datebook can be set by you. Before using Datebook for the first time, ensure that the current year is correct. See “Initial Setup” on page 146 for more information.

This section includes:

Datebook Icons	Page 112
Viewing Your Datebook	Page 112
About Datebook Events	Page 114
Adding New Events	Page 115
Editing Events	Page 119
Deleting Events	Page 119
Customizing Datebook Set Up	Page 120

Datebook Icons

There are several icons commonly used in the Datebook application:

Symbol	Description
•	Event without a start/end time
>	More options are available
⟳	Recurring Appointment
🕒	Datebook Alarm
↔	Used to move through fields when setting a time and date.

Viewing Your Datebook

To access your Datebook:

- 1 From the idle screen, press .
- 2 Press  to scroll to **Datebook**.
- 3 Press  under SELECT.

Information in your Datebook can be viewed in three ways: by the week, by the day, or by the event.

This information is structured hierarchically. When you access the Datebook, it displays the current week. You can select a day to view and display the events of that day. When the events of a day are displayed, you can select an event to view and display details of that event.

Viewing a Week

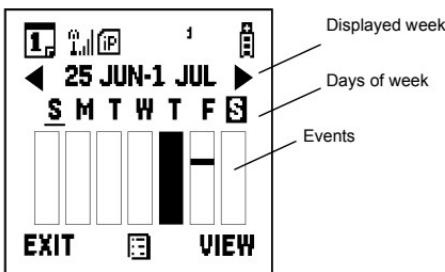

When you access your Datebook, the current week is displayed. You can scroll to other weeks by pressing .

The dates of the displayed week appear at the top of the text area of your phone's screen.

Below the dates are letters indicating the days of the week. When you access your Datebook, the current day is highlighted. You can scroll to other days by pressing .

Below each letter is a 12-hour time window for each day. Scheduled events are shown within the time window in black.

A small bar between the letter and the time window indicates an event on that day that does not have a time of day associated with it, such as a birthday.

Viewing a Day

To view a day in your Datebook:

- 1** With a week displayed, select the day you want to view by pressing  until the letter for that day is highlighted.
- 2** Press  under VIEW.

The day and date appear at the top of the text display area. Events for the day selected are listed by time. Events without times are displayed at the top of the list with a bullet to the left of them.

Viewing Event Details

To view the details of an event:

- 1** Select and view the day containing the event you want to view.
- 2** Press  to scroll to the event.
- 3** Press  under VIEW.

This displays event details such as day of week, time, title, duration, alarm time, and repeat cycle. For more information about events, see “About Datebook Events” on page 114.

Viewing Today

You can easily go to the current day when viewing your Datebook:

- 1** While viewing any week, day, or event, press  . This displays the **Datebook Menu** with **Go to Today** highlighted.
- 2** Press  under SELECT.

About Datebook Events

Each Datebook event may contain the following information:

- The title you assign to the event. You can enter a title using the phone’s alphanumeric keypad or choose from a list of commonly used titles. A title is required for every event (maximum of 128 characters).
- Additional text following the event’s title.
- The start time and duration of the event.
- The date of the event.
- An option to repeat the event in your Datebook.
- An alarm to notify you of the event before it begins.
- The style you want your phone to use when the event occurs. See “Styles” on page 151 for more information.

Adding New Events

Using the following instructions, you will enter the information in the order the items appear on the **Event Form** screen. However, you can enter this information in any order by pressing  to scroll through the items on the **Event Form** screen. You can leave any item blank (except title and date) or unchanged by pressing  to scroll past it on the **Event Form** screen. Only a title and a date are required for a valid event.

To cancel a Datebook event entry at any time, press  to return to the idle screen.

To add a Datebook event:

- 1 Access the **Event Form** screen:

While viewing a week in the Datebook, press  to access the **Datebook Menu**.

Press  to scroll to **New**.

Press  under **SELECT**.

The **Event Form** screen displays with the **Title:** field highlighted.

- 2 With the **Title:** field highlighted, press  under **CHANGE** to access the **Title:** screen.

- 3 Assign a title to the event:

Press  under **BROWSE** to choose from a list of commonly used event titles. Press  to scroll to the title you want and press  under **SELECT**.

Or,

Type the title using the alphanumeric keypad. See “Using T9 Text Input” on page 28 for information about entering text into this field.

You can also enter a description of the appointment or any other text.

When you are finished, press  under **OK**.

The **Event Form** screen returns with the **Start:** field highlighted.

- 4 If you want to assign a time of day to the event:

With the **Start:** field highlighted, press under CHANGE.

From the **Start:** screen, enter the time the event will begin.

Type in the start time, or press to scroll through the hours, minutes, and am, pm, or 24 hour clock. Press or press under to move through the fields.

Press under DONE.

The **Event Form** screen returns with the **Duration:** field highlighted.

- 5 After you have assigned a start time to the event, you can specify the duration of the event. The default duration is one hour. To assign a different duration:

With the **Duration:** field highlighted, press under CHANGE.

From the **Duration** screen, press to scroll to the desired duration. If you select **None**, the event will have a duration of zero minutes.

Press under SELECT.

The **Event Form** screen returns with the **StartDate:** field highlighted.

- 6 The default date assigned to an event is the day that was highlighted when you accessed the **Event Form** screen to add the event. To assign a different date:

With the **StartDate:** field highlighted, press under CHANGE.

From the **StartDate:** screen, enter the date of the event:

Type in the date, or press to scroll through the months, days, and years. Press or press under to move through the fields.

Press under DONE.

The **Event Form** screen returns with the **Repeat:** field highlighted.

- 7** If you want the event to recur in your Datebook, assign a repeat cycle to it:

With the **Repeat:** field highlighted, press  under CHANGE.

NOTE: When Repeat is set to none or yearly, it will not be possible to access the Repeat End field.

From the **Repeat** screen, press  to scroll to the desired repeat cycle.

Press  under SELECT.

The **Event Form** screen returns with the **RepeatEnd:** field highlighted.

Press  under CHANGE and enter the date on which you want to event to stop repeating. When you have finished, press  under DONE.

The **Event Form** screen returns with the **Alarm:** field highlighted.

- 8** If you want to set an alarm to remind you that the event is approaching:

With the **Alarm:** field highlighted, press  under CHANGE.

From the **Alarm** screen, press  to scroll to the desired alarm option.

Press  under SELECT.

- 9** If you want your phone to change to a style you have defined when the event occurs (see "Styles" on page 151):

With **MORE** highlighted, press  under SELECT. The **Style:** field appears.

Press  under CHANGE.

From the **Style** screen, you see a list of styles you have created. Press  to scroll to the desired style.

Press  under SELECT.

- 10** When you have entered all the desired information about the event, press  under DONE.

Editing Events

- 1** If you are viewing the event:

Press under EDIT.

Or,

If you are viewing the day containing the event:

Press to scroll to the event you want to edit. Press to display the **Datebook Menu**. Press to scroll to **Edit** and press then under SELECT.

- 2** Follow the applicable instructions in “Adding New Events” on page 115, to edit the various fields.

Deleting Events

- 1** View the day containing the event and press to scroll to the event you want to delete.

Or,

View the details of the event you want to delete.

- 2** Press . The **Datebook Menu** displays.

- 3** Press to scroll to **Delete** and press under SELECT.

- 4** If the event is a recurring event, the **Delete Event** screen appears:

- To delete only the occurrence of the event you select in step 1, leave **This Event Only** highlighted.
- To delete all occurrences of the event, press to highlight **Repeat Events**.

Press under SELECT.

- 5** If the event is a recurring event, a confirmation screen appears. Press under YES to confirm.

Customizing Datebook Set Up

Datebook allows you to customize the some of its set up features:

- **DailyBegin** — sets the beginning time of the 12-hour day your Datebook displays when you are viewing a week.
- **Reminder** — controls the behavior of alarms you have set in Datebook:
 - **Active Only** sets Datebook to ignore alarms that occur when your phone is powered off.
 - **Delayed If Off** sets Datebook to delay alarms that occur when your phone is powered off until your phone is next powered on.
- **Weekday** — sets the first day of the week your Datebook displays when you are viewing a week.
- **DeleteAfter** — controls how long your Datebook waits to delete an event after it has occurred.

To customize your Datebook set up:

- 1 While viewing a week in the Datebook, press  to access the **Datebook Menu**.
- 2 Press  to scroll to **Setup** and the press  under **SELECT**
- 3 Press  to scroll to any of the set-up features.
Press  under **CHANGE**.
Use the screens that appear to make your changes.

Memo

The Memo application provides you with a place to store a numeric note in your i85s phone.

This section includes:

Adding a New Memo	Page 121
Viewing a Memo	Page 121
Editing a Memo	Page 122
Deleting a Memo	Page 122

Adding a New Memo

- 1 From the idle screen, press .
- 2 Press  to scroll to **Memo**.
- 3 Press  under SELECT. The **Memo** screen displays.
- 4 Type your numeric memo using the phone's keypad.
- 5 Press  under STORE.

Viewing a Memo

- 1 From the idle screen, press .
- 2 Press  to scroll to **Memo**.
- 3 Press  under SELECT.

Editing a Memo

- 1 From the idle screen, press .
- 2 Press  to scroll to **Memo**.
- 3 Press  under SELECT.
- 4 Type the new number.

You can delete a digit by pressing  under DELETE. To delete all the digits, press and hold  under DELETE.

- 5 Press  under STORE.

Deleting a Memo

- 1 From the idle screen, press .
- 2 Press  to scroll to **Memo**.
- 3 Press  under SELECT.
- 4 Press and hold  under DELETE.
- 5 Press  under STORE.

Voice Notes

The Voice Notes feature of your *i85s* phone enables you to record and play back personal messages or the incoming portion of phone calls on your *i85s* phone.

This section includes:

About Voice Notes	Page 123
Accessing Voice Notes	Page 123
Recording a Voice Note	Page 124
Playing a Voice Note	Page 124
Adding to a Voice Note	Page 125
Labeling a Voice Note	Page 125
Deleting Voice Notes	Page 126
Locking/Unlocking a Voice Note	Page 126
Voice Notes Memory	Page 127

About Voice Notes

Your phone can store up to 20 Voice Notes, with a maximum total time of about three minutes, depending on available memory.

IMPORTANT LEGAL NOTE: Voice Notes recording capabilities should only be used in accordance with applicable state laws. Please check your local laws regarding the recording of conversations using the Voice Notes feature.

Accessing Voice Notes

To access the Voice Notes feature:

- 1 From the idle screen, press .

- 2 Press  to scroll to **VoiceNotes**.
- 3 Press  under SELECT.

Recording a Voice Note

To record a personal message as a Voice Note:

- 1 From the **VoiceNotes** screen, press  to scroll to [**New VoiceNote**].
- 2 Press  under RECORD and speak the message you want to record into the microphone.
- 3 When you are finished recording your Voice Note, press  under STOP.

To record the incoming portion of a call as a Voice Note:

- 1 While on an active call, press .
- 2 Press  to scroll to **VoiceNotes**.
- 3 Press  under SELECT to record the incoming portion of the call. Your own voice will not be recorded.
- 4 When you are finished recording your Voice Note, press  under STOP.

Playing a Voice Note

- 1 From the **VoiceNotes** screen, press  to scroll to the Voice Note you want to play.
- 2 Press  under PLAY.
- 3 To stop the Voice Note while it is playing, press  under BACK.

Adding to a Voice Note

After you create a Voice Note, you can go back and record more at the end of the existing Voice Note:

- 1 From the **VoiceNotes** screen, press  to scroll to the Voice Note you want to add to.
- 2 Press  to view the **VoiceNotes Menu**.
- 3 Press  to scroll to **Add To**.
- 4 Press  under SELECT and speak the message you want to record into the microphone.
- 5 When you are finished recording, press  under STOP.

Labeling a Voice Note

When you create a Voice Note, it is labeled with the time and date it was recorded. After a Voice Note has been recorded, you can re-name it with a custom label.

To label a Voice Note:

- 1 From the **VoiceNotes** screen, press  to scroll to Voice Note you want to name.
- 2 Press  to view the **VoiceNotes Menu**.
- 3 Press  to scroll to **Label** and press  under SELECT.
- 4 At the **Enter Label:** screen, enter a label for the Voice Note using the alphanumeric keypad.
- 5 Press  under OK.

Deleting Voice Notes

To delete a Voice Note:

- 1 From the **VoiceNotes** screen, press  to scroll to Voice Note you want to delete.
- 2 Press  to view the **VoiceNotes Menu**.
- 3 Press  to scroll to **Delete** and press  under SELECT.
- 4 A confirmation screen appears. Press  under YES to confirm.

To delete all unlocked Voice Notes:

- 1 From the **VoiceNotes** screen, press  to view the **VoiceNotes Menu**.
- 2 Press  to scroll to **Delete All** and press  under SELECT.
- 3 A confirmation screen appears. Press  under YES to confirm.

Locking/Unlocking a Voice Note

Locking a Voice Note prevents it from being deleted. When a Voice Note is locked, the locked icon  appears next to it.

To lock or unlock a Voice Note:

- 1 From the **VoiceNotes** screen, press  to scroll to Voice Note you want to lock or unlock.
- 2 Press  to view the **VoiceNotes Menu**.
- 3 Press  to scroll to **Lock** or **Unlock**.
- 4 Press  under SELECT. A confirmation screen displays.

Voice Notes Memory

Typically, you can store up to 20 Voice Notes with a total time of about three minutes. To check the amount of memory available for Voice Notes:

- 1** From the **VoiceNotes** screen, press  to view the **VoiceNotes Menu**.
- 2** Press  to scroll to **Memory**.
- 3** Press  under SELECT to display the **Memory Meter** screen.

The memory meter shows the amount of Voice Notes memory space currently in use. It fills in from left to right as your Voice Notes memory space fills up.
- 4** From the **Memory Meter** screen, you can free more Voice Notes memory space by pressing  under DELETE to delete all unlocked Voice Notes.

A confirmation screen displays. Press  under YES to confirm.

NOTE: Because Voice Notes are stored in your phone using the same memory space used to store Java applications, using a large amount of memory to store Java applications reduces the space available for Voice Notes. When this occurs, deleting Java applications from your phone's memory frees memory space for Voice Notes. For more information about Java applications stored in your phone, see "Java Apps" on page 133.

Nextel Wireless Web

You can use your phone's Net feature to access a suite of wireless data products known as Nextel Wireless Web services. You can use your *i85s* phone to send and receive email, obtain driving directions, check weather and news updates, view the latest stock quotes, or complete financial transactions. Access the specific information you need to get business done... easily... wirelessly!

Nextel Wireless Web* requires the activation of a Nextel OnlineSM Service Plan. Nextel Online Service Plans vary in product and service offerings. Select services are only available with the Nextel Online Plus Service Plan.

To order, call Nextel Customer Care at 1-800-639-6111.

For more information, see the *Nextel Wireless Web User's Guide*.

* *Nextel Wireless Web is only available in the continental United States.*

The main topics covered in this section are listed below:

Wireless Web Navigation Keys	Page 129
Starting the Microbrowser	Page 130
Using Your Phone as a Modem	Page 131

Wireless Web Navigation Keys

You can quickly and easily navigate with the phone's microbrowser by using the following keys:

Home: Press  to return to your home page.

Back: Press  to return to a previous screen.

Scroll: Arrows to the left of your phone's display screen () indicate that additional text can be viewed. Press  to scroll one line at a time, or press and hold to scroll one page at a time.

Starting the Microbrowser

Just as you use Netscape Navigator® or Microsoft® Internet Explorer to browse the Web from your desktop, the microbrowser contained in your phone allows you to explore and use a variety of Internet services. To begin using the Nextel Wireless Web:

- 1 From the idle screen, press  to access the **Main Menu**.
- 2 Press  to scroll to **Net**.
- 3 Press  under **SELECT**.
- 4 The first time you access **Net**, you will be asked to enable security on your phone. Enabling this security feature ensures that the communications and transactions you complete on your phone and transmit over the Nextel National Network remain private and secure.
Press  under **Yes** to enable the phone's network security feature. The phone screen will display the following short messages: **Generating..., Computing..., Sending)))).**
You may be asked to (re)enable security as Nextel adds new services or upon your return to the U.S. after traveling.
In instances when you are transmitting highly personal or sensitive data, such as a credit card number, you will see the Secure Data icon  on your phone. The presence of this icon indicates that the data is encrypted during transmission.
- 5 After security is enabled, your Wireless Web home page displays. To return to this home page from anywhere within the various menus and sub-menus, press 
- NOTE: Home pages will vary depending on the Nextel Online Service Plan to which you have subscribed.**
- 6 Scroll to highlight the service you wish to access and press  under **OK**, or press the number shown to the left of your desired selection to automatically jump to that service.
- 7 You may press  at any time to return to the previous screen.

Using Your Phone as a Modem

With Nextel OnlineSM Dial-Up Service, you can use your *i85s* phone as a wireless modem! You can connect your IBM™-compatible computer* or Personal Digital Assistant* (PDA) to your *i85s* phone and access your company's network or the Internet — all without the hassle of locating a telephone jack for a landline connection.

* Visit nextel.com for compatible operating systems.

To use Nextel Online Dial-Up Service, you must subscribe to a Nextel Online Service Plan and have Dial-Up Service activated. To activate this service, please call Nextel Customer Care at 1-800-639-6111.

NOTE: Nextel Online Dial-Up Service is only available in the continental United States and Hawaii.

Java Apps

The Java Apps feature of your *i85s* phone runs programs, or applications, written in the Java programming language. The phone comes with three Java applications installed and ready to run: Expense Pad, a suite of calculator applications, and a Sega game called Borkov.

You can install and run other Java applications by loading them into your phone from a PC.

This section includes:

Running Java Apps	Page 133
Standard Applications	Page 134
Custom Applications	Page 135
Java Apps Memory	Page 135

Running Java Apps

To access the Java Apps applications:

- | | |
|----------|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Java Apps . |
| 3 | Press  under SELECT. |

The **Java Apps** screen displays all your Java applications.

To run an application:

- | | |
|----------|---|
| 1 | From the Java Apps screen, press  to scroll to the application you want to run. |
| 2 | Press  under SELECT. |
| 3 | Press  under RUN. |

To suspend a running application:

Press .

To resume a suspended application:

Press  under RESUME.

To stop running an application:

Press  and then press  under EXIT.

Standard Applications

Three standard applications are pre-installed in your phone:

- Calculator suite
- Expense Pad
- Sega game

Help files may be available within the applications.

Calculator Suite

The Calculator suite provides several calculator applications including basic math, unit conversion, and construction functions.

Enter numbers and arithmetic symbols into the Calculator using your phone's alphanumeric keypad.

Expense Pad

The Expense Pad application provides a convenient way to enter and store travel expenses. Enter numbers and select expense categories using your phone's alphanumeric keypad and navigation keys.

Sega Game

Your phone comes with a Sega game called Borkov. The game shows you a pattern on the screen and you must match the patterns by eliminating squares in a grid. Use your phone's option keys and navigation keys to play.

Custom Applications

You can customize your phone by connecting your phone to a PC using a data cable and downloading additional Java applications. Please go to nextel.com for the selection of applications and downloading instructions.

Deinstalling Java Apps

To remove standard or custom Java applications from your phone:

- | | |
|----------|--|
| 1 | From the Java Apps screen, press  to scroll to the application you want to remove. |
| 2 | Press  . |
| 3 | Press  to scroll to DEINSTALL . |
| 4 | Press  under SELECT. |
| 5 | A confirmation screen displays. Press  under YES. |
| 6 | When your phone has finished deinstalling the application, press  under DONE. |

Java Apps Memory

If you want to use custom Java applications in your phone, you must have enough memory in your phone to store and run the custom application you want.

The screens displayed show how much **Data**, **Program**, and **Heap** memory your phone has free:

- **Data** refers to the memory used to store application data, such as image files.
- **Program** refers to the memory used to store application code.
- **Heap** refers to the memory RAM available at run-time to store Java objects.

To check how much memory your phone has available for Java applications:

- | | |
|----------|---|
| 1 | From the Java Apps screen, press  to scroll to Java System . |
| 2 | Press under  SELECT. |
| 3 | Press under  NEXT. |
| 4 | To see more memory information, press  under NEXT again. |

NOTE: Because Java applications are stored in your phone using the same memory space used to store Voice Notes, using a large amount of memory to store Voice Notes reduces the space available for Java applications. When this occurs, deleting Voice Notes from your phone's memory frees memory space for Java applications. For more information about Voice Notes stored in your phone, see "Voice Notes" on page 123.

Customizing the i85s Phone

You can customize your *i85s* phone to fit the way you want to use it.

The phone's Settings menu enables you to control many of the phone's features and functions, including display properties, message handling, and security features.

The Styles feature enables you to group screen display, ring, and call answering features together and save them for quick and easy access.

The Shortcuts feature enables you to access most menu or submenu options in your phone by pressing a numeric button on the keypad.

This section includes:

Settings Menu	Page 137
Styles	Page 151
Shortcuts	Page 156

Settings Menu

Using the Settings menu, you can set or change a wide variety of your phone's features.

To access the Settings menu:

- 1 From the idle screen, press .
- 2 Press  to scroll to **Settings**.
- 3 Press  under SELECT.

From the **Settings** screen, you can access these Settings options:

- **Ring/Vibe** — controls how your phone rings or vibrates when you receive calls and messages.
- **Phone Setup** — sets call-answering features, turns off non-telephone features, chooses which phone line is used, and sets your network ID.
- **In-Call Setup** — sets call timer, message notification, and call waiting features.
- **Security** — sets security features including phone lock, keypad lock, and SIM PIN.
- **Personalize** — controls which features are most accessible when you turn on your phone.
- **Initial Setup** — sets a variety of display features including the language displayed, the size of the characters on the text screen, time and date formats, current year, backlight, status light, and scrolling. Also turns auto redial on or off and sets baud rate.
- **VoiceVolume** — sets the volume of your phone's earpiece and speaker.
- **Tkgrp Settings** — sets certain Talkgroup options.
- **Service Status** — shows the status of your phone's services.

To access any of these options:

- 1 From the **Settings** screen, press  to scroll to the option you want to access.
- 2 Press  under SELECT.

Many of these options have other options within them. Press  to scroll through the lists of options, and press  or  to select and modify options and the features, according to the instructions on your phone's screen. For some options, you can also press  to select sub-options.

In screens that show lists of options for a setting, a check mark to the left of the option indicates the current option for the setting.

Ring/Vibe

Ring/Vibe enables you to control how your phone rings and vibrates when you receive calls and messages. You can set ring volume, choose ring styles, and use the VibraCall® Alert feature which enables you to set your phone to alert you to calls and messages by vibrating.

Main Options

Ring/Vibe provides these main options:

- **Ringer Vol** — sets ring volume.
- **Keypad Vol** — sets volume of sounds associated with keypad actions.
- **Mail Vol** — sets volume of Text Message, Voice Mail, and Net Mail notifications.
- **Java/Data Vol** — sets data or Java application volume.
- **Headset** — choosing the **HdsetOnly** option prevents sound from being emitted from the phone's speaker when the headset is being used.
- **VibeAll** — choosing **On** sets the phone to vibrate for all calls, messages, and alerts; choosing **Off** enables you set the type of notification for each these features.

Ring Style and Notification Type

When you set **VibeAll** to **On**, your phone vibrates to notify you of all types of calls, messages, and alerts.

When you set **VibeAll** to **Off**, the following features display after **VibeAll** on the **Ring/Vibrate** screen, enabling you to set notification options for each:

- **Line 1** — sets the ring style and type of notification for calls on Line 1.
- **Line 2** — sets the ring style and type of notification for calls on Line 2.
- **Pvt/Grp** — sets type of notification for Private and Group calls.
- **Call Alert** — sets the ring style and type of notification for call alerts.
- **Text Msgs** — sets type of notification for Text Messages.
- **Reminder** — sets type of notification for Datebook reminder alarms.
- **Voicemail** — sets type of notification for Voice Mail messages.
- **Netmail** — sets type of notification for Net Mail messages.

To set **VibeAll** to **Off** or **On**:

- | | |
|----------|--|
| 1 | From the Ring/Vibrate screen, press  to scroll to the VibeAll : |
| 2 | Press  under CHANGE. |

3 Press to scroll to **Off** or **On**.

4 Press under SELECT.

The following icons appear on the second row of your display screen to indicate the options you have chosen:

Icon	Indicates...
	Vibrate All - phone is set to vibrate when you receive all types of calls, messages, and alerts; the VibeAll option is On .
	Vibrate On - phone is set to vibrate when you receive phone calls.
	Vibrate Then Ring - phone is set to vibrate and then ring when you receive phone calls.

Ring Styles

When you set a ring style, you can choose from any of nine pre-set ring styles.

To set a ring style:

- 1 From the **Ring/Vibrate** screen, ensure that **VibeAll** is set to **Off**. Then press to scroll to any of the features that allow you to set a ringer style: **Line1**, **Line2**, or **Call Alert**.
- 2 Press under SELECT.
- 3 With the **Style:** field highlight, press under CHANGE.
- 4 Press to scroll to the ring style you want to assign to the feature.
- 5 To assign the ring style, press under SELECT.

USER TIP: To hear the ring style you have selected, press the volume control buttons on the side of your phone.

Notification Types

When you set a notification type, you have these options:

- **Ring** — the phone rings to notify you.
- **Vibe** — the phone vibrates to notify you.
- **Vibe/Ring** — the phone vibrates and then rings to notify you. This option is only available for calls on Line 1 and Line 2.
- **Silent** — the phone does not ring or vibrate to notify you.

To set a notification type:

- | | |
|----------|---|
| 1 | From the Ring/Vibrate screen, ensure that VibeAll is set to Off . Then press  to scroll to any of the features on the Ring/Vibrate screen after VibeAll . |
| 2 | Press  under SELECT . |
| 3 | With the Type: field highlight, press  under CHANGE . |
| 4 | Press  to scroll to the notification type you want to assign to the feature. |
| 5 | To assign the notification type, press  under SELECT . |

Phone Setup

Phone Setup sets some basic phone features. Access Phone Setup to set the following options:

- **Line** — enables you to choose Line 1 or Line 2 as the active line for outgoing calls.
- **AutoAns** — sets your phone to automatically answer an incoming call after a specified number of rings. When this feature is turned on, the phone answers by connecting you to the caller; it does not send the call to Voice Mail, unless you are out of coverage or on the line.
- **Any Key** — when turned on, enables you to answer calls by pressing any key on the alphanumeric keypad.
- **Phone Only** — when turned on, prevents your phone from making or receiving Private calls or Group calls.
- **Network ID** — enables you to set the phone's network IDs.

In Call Setup

In Call Setup sets the in-call timer, message notification, and call waiting features.

- The **In Call Timer** option turns the following features on and off:
 - **Display** — the duration of the current call displays on the phone's screen.
 - **Minute Beep** — an audible beep occurs every minute of an active call.
- The **Notifications** option controls message notification during calls:
 - **Receive All** — notifies you of all types of messages during calls.
 - **Msg Mail Only** — notifies you of mail messages only; all other types of message notifications are delayed until the call has ended.
 - **Delay All** — delays notification of all messages until the call has ended.
- **Call Waiting** — enables you to turn off call waiting for the next call. After you hang up, call waiting is turned back on.

Security

Security allows you to set security features:

- **Phone Lock** — sets an optional code that locks your phone.
- **Keypad Lock** — displays instructions for locking and unlocking your phone's keypad.
- **SIM PIN** — enables and disables your phone's SIM PIN requirement.
- **New Passwords** — enables you to change your phone's unlock code, security code, and SIM PIN.
- **Master Reset** — allows Nextel Customer Care to reset your service in the event of a security or provisioning problem.

Using Phone Lock

The Phone Lock feature enables you to prevent your phone from being used unless an Unlock code is typed into the keypad.

The Unlock code is required to enable the phone lock feature, to unlock the phone, and to set a new Unlock code. Contact Nextel Customer Care at 1-800-639-6111 for your default Unlock code.

Phone lock provides two options for locking the phone:

- **Lock Now** locks the phone immediately after you set the option.
- **Auto Lock** locks the phone the next time the phone is powered on.

Setting Keypad Lock

Choosing the Keypad Lock option displays instructions for locking and unlocking your phone's keypad. See "Keypad Lock" on page 23 for more information on locking the keypad.

Enabling and Disabling SIM PIN

The SIM PIN option enables and disables the feature that requires a SIM PIN code to be typed into the phone to access the information on the SIM card and to make or receive calls. See "SIM Card Personal Identification Number (PIN)" on page 17 for more information.

Setting New Passwords

The New Passwords option enables you to set three types of passwords that control access to your phone:

- **Unlock Code** — this code is used to control access to the phone using Phone Lock. It is also required to access the Master Clear and Feature Reset features. If you want to use any of these features, contact Nextel Customer Care at 1-800-639-6111 for your default Unlock code.
- **Security Code** — this code is used to access the Master Reset feature under the direction of a Nextel Customer Care representative. It can also be used to override your Unlock code under the direction of a Nextel Customer Care representative.
- **SIM PIN** — this code is used to access the information on your SIM card and to make or receive calls. When you get your phone, your SIM PIN is 0000. You should change this to a SIM PIN known only to you as soon as you get your phone. For information on changing your SIM PIN, see "Changing the PIN" on page 18.

Using Master Reset

The Master Reset option is provided for use only under the direction of a Nextel Customer Care representative. It resets your service.

Personalize

Personalize contains three options that control which major features are easiest to access when you turn on your phone:

- **Main Menu** — changes the order of the items on your main menu.
- **Keys** — controls which main menu items appear above the two option keys on the idle screen.
- **Power Up App** — sets any of the programs on the main menu to run when you turn on your phone.

Reordering Main Menu

- 1 From the **Personalize** screen with **Main Menu** highlighted, press  under SELECT to access the **Reorder Menu** screen.
- 2 Press  to scroll to the main menu option you want to move.
- 3 Press  under GRAB.
- 4 Press  to move the option up or down in the list.
- 5 When the item is where you would like it to appear in the main menu, press  under INSERT.
- 6 Repeat step 2 through step 5 for all main menu items you want to move.
- 7 Press  under DONE.

Changing Idle Screen Options

Two options from the main menu always appear on your idle screen above the left and right option keys. Each option can be accessed by pressing the corresponding option key.

Your phone arrives with Phonebook (**PHBK**) assigned to the left option key (Ⓐ) and Messages (**MESG**) assigned to the right option key (Ⓑ). You can assign any Main Menu option you want to the option keys.

- | | |
|----------|---|
| 1 | From the Personalize screen, press Ⓢ to scroll to Keys . |
| 2 | Press Ⓐ under SELECT . The Keys screen shows the option assigned to each option key (Left and Right). |
| 3 | To change the option assigned to the left option key, press Ⓑ under CHANGE while Left is highlighted. |
| 4 | Press Ⓢ to scroll to the option you want to assign to the left option key. |
| 5 | Press Ⓐ under SELECT . |
| 6 | To change the option assigned to the right option key, press Ⓢ to highlight Right and press Ⓑ under CHANGE . Repeat steps 4 and 5 for the right option key. |

Changing Power-Up Program

Your phone is set to display the idle screen when it is powered on. You can set the phone to display the main screen of any main menu option when it is powered on.

- | | |
|----------|---|
| 1 | From the Personalize screen, press Ⓢ to scroll to Power Up App . |
| 2 | Press Ⓐ under SELECT . The Power Up App screen shows the name of the program or screen that currently appears when the phone is powered on. |
| 3 | Press Ⓑ under CHANGE . |
| 4 | Press Ⓢ to scroll to the option you want to appear when the phone is powered on. |
| 5 | Press Ⓐ under SELECT . |

Initial Setup

Initial Setup enables you to control a variety of your phone's features that you may want to modify when you first get your phone:

- **Time/Date Format** — sets the format in which the time and date display on your phone.
- **Year** — sets the current year.

NOTE: Changing the current year may affect stored Datebook events. Datebook stores events 12 month ahead and one month after the current date. Events outside this range will be deleted. See "Datebook" on page 111 for more information.

- **Auto Redial** — turns the automatic redial feature on and off.
- **Backlight** — controls how long your phone's backlight stays on.
- **Status Light** — controls whether the status light is on when the phone is on.
- **Display** — controls the size of the text in the text display area.
- **Control** — sets the display contrast light or darker.
- **Scroll** — sets how you can scroll lists and menus.
- **Language** — sets the language that your phone displays.
- **Master Clear** — returns all settings to their original defaults and erases all stored lists. Use only under the direction of a Customer Care representative.
- **Feature Reset** — returns all settings to their original defaults. Use only under the direction of a Customer Care representative.
- **Baud Rate** — sets the baud rate at which your phone sends and receives information on the Internet.

Changing Time and Date Format

Your phone displays times in 12-hour-clock format (12:00 am through 11:59 pm) or 24-hour-clock format (0:00 through 23:59). It displays dates in month/day format or day/month format.

NOTE: If you turn the time and date display off, no times are associated with calls on your Recent Calls list, and the alarm feature of your Datebook is disabled.

To set the time and date format, or turn time and date display on or off:

1 From the **Initial Setup** screen with **Time/Date Format** highlighted, press  under **SELECT** to access the **Time/Date Format** screen.

2 To change the time format:

With **Time Format**: highlighted, press  under **CHANGE** to access **Time Format** screen.

Press  to highlight the time format you want.

Press  under **SELECT**.

3 To change the date format:

Press  to highlight **Date Format**, and press  under **CHANGE** to access **Date Format** screen.

Press  to highlight the date format you want.

Press  under **SELECT**.

4 To turn the time and date format on or off:

Press  to highlight **Display**, and press  under **CHANGE** to access **Display** screen.

Press  to choose **Off** or **On**.

Press  under **SELECT**.

Setting Auto Redial

When Auto Redial is set to **On**, if you receive a **System Busy, Try Later** message while making a call, the phone will redial the number automatically. You will hear a ring-back tone when a successful call is placed.

When Auto Redial is set to **Off**, you must press and hold  to redial the last number dialed.

Setting Backlight Timer

The backlight illuminates the display when you receive or make calls. You can set the amount of time that the backlight stays on to 5, 10, 20, or 30 seconds, or set it to stay on continuously or stay off at all times.

- 1 From the **Initial Setup** screen, press  to scroll to **Backlight**.
- 2 Press  under CHANGE.
- 3 Press  to scroll to the desired backlight option.
- 4 Press  under SELECT.

Adjusting Status Light

The status light is part of your phone's power button. It illuminates when the phone is on. You can turn the status light feature on or off from the **Initial Setup** screen.

Setting Text Display

You can set your phone's text display area to show more text using smaller characters or less text using larger characters. The size and amount of text displayed depends on the view selected:

- **Standard view** — five lines of text, 14 characters per line.
- **Compressed view** — seven lines of text, 18 characters per line.
- **Zoom view** — four lines of text, 11 characters per line.

To set the text display view:

- 1 From the **Initial Setup** screen, press  to scroll to **Display**.
- 2 Press  under CHANGE.
- 3 Press  to scroll to the desired display option.
- 4 Press  under SELECT.

NOTE: Unless otherwise noted, illustrations in this User's Guide depict Standard view.

Setting Scrolling

You can set your phone to scroll through menus and lists in either of two ways:

- **Up/Down** — when you reach the bottom or top of list or menu scrolling stops until you scroll in the other direction.
- **Wrap Around** — when you reach the bottom or top or a list or menu scrolling “wraps” around and continues at the other end of the lists of menu.

You can set the scrolling style from the **Initial Setup** screen, using the **Scroll** option.

Changing Display Language

You can customize the i85s phone to display menus in English, French, Spanish, or Portuguese. The default language is English.

To change the display language:

- | | |
|----------|--|
| 1 | From the Initial Setup screen, press  to scroll to Language . |
| 2 | Press  under CHANGE . |
| 3 | Press  to scroll to the language you want your phone to display. |
| 4 | Press  under SELECT . |

Master Clear

Master Clear returns all your phone's settings to their original defaults and erases all stored lists. To use this feature, you must contact Nextel Customer Care at 1-800-639-6111 to receive your phone's Unlock code.

Feature Reset

Feature Reset returns all your phone's settings to their original defaults. To use this feature, you must contact Nextel Customer Care at 1-800-639-6111 to receive your phone's Unlock code.

Setting Baud Rate

You can set your phone's Internet baud rate from the **Initial Setup** screen. Scroll to the **Baud Rate** option and then choose the baud rate you want, or choose **Auto** to set your phone to automatically choose the appropriate baud rate.

VoiceVolume

VoiceVolume sets the volume of the sound coming from your phone's earpiece or speaker:

- 1 From the **VoiceVolume** screen, highlight **Earpiece Vol:** to set the earpiece volume, or press  to scroll to **Speaker Vol:** to set the speaker volume.
- 2 Press  under CHANGE.
- 3 To select a volume level:
Press  to raise or lower the volume setting.
Or,
Press the Volume Control keys on the side of your phone.
- 4 Press  under OK.

Tkgrp (Talkgroup) Settings

Tkgrp Settings enables you to set certain Talkgroup options. See “Group Call” on page 107 for more information.

Service Status

The Service Status screen shows the status of your Nextel services. This screen is for information only; no options can be set.

Styles

The Styles feature enables you to save a group of settings for call and message notification, screen display, and call answering features. You save your selections as a “style” and access them at any time. You can store up to ten styles.

Your phone comes with pre-set styles, such as Car and Meeting. You can use these pre-set styles, edit them or create your own styles.

Each style contains the following settings:

- **Ring/Vibe** — controls how your phone rings and vibrates when you receive calls and other messages. See “Ring/Vibe” on page 138.
- **Backlight** — controls how long your phone’s backlight stays on. See “Setting Backlight Timer” on page 148.
- **Display** — controls the size of the text in the text display area. See “Setting Text Display” on page 148.
- **Call Filter** — enables you to set your phone to not ring or vibrate when you receive some or all calls, messages, and alerts. See “Setting Call Filtering” on page 154.
- **Auto Answer** — sets your phone to automatically answer an incoming call after a specified number of rings. When this feature is turned on, the phone answers by connecting you to the caller; it does not send the call to Voice Mail.

Using the Styles feature, you can create styles, edit styles, view a style’s properties, delete styles, activate any style you have created, or turn off the active style.

To access the **Styles Menu**:

1 From the idle screen, press .

2 Press  to scroll to **Styles**.

3 Press  under SELECT.

From the **Styles Menu**, you can:

- activate a style or turn off the currently active style
- create a new style
- access the **Styles Action** menu for more Styles functions

Creating a Style

When you create a style, you give it a name and set the features of that style. The name of the style then appears on the Styles Menu.

To create a style:

1 From the **Styles Menu** screen, press  to scroll to **[New Style]**.

2 Press  under **SELECT**.

3 Assign a name to the style you are creating:

In the **Name:** screen, use the alphanumeric keypad to enter the name you want to give the style.

As you type, you can delete a letter by pressing  under **DELETE**. To create a space, press  once.

Press  under **OK**.

4 In the **New** screen, press  to scroll through the settings for each style option.

5 To change any style option:

Press  to highlight the option.

Press  under **CHANGE** or **SELECT**.

Use the screens that appear to make your changes.

6 When all the style options have the settings you want, press  under **DONE**.

Editing a Style

To change the settings of a style:

1 From the **Styles Menu** screen, press  to scroll to the name of the style you want to edit.

2 Press  to access the **Styles Action** menu.

- | | |
|----------|---|
| 3 | Press  to scroll to Edit and press  under SELECT. |
| 4 | To change any style option:
Press  to highlight the option.
Press  under CHANGE or SELECT.
Use the screens that appear to make your changes. |
| 5 | When all the style options have the settings you want, press  under DONE. |

Activating a Style

When you access the **Styles Menu**, a check mark appears to the left of the name of the style that is currently active on your phone. If no style is active, the check mark appears next to **Off**. The active style name will appear on the idle screen.

To activate a style:

- | | |
|----------|--|
| 1 | From the Styles Menu screen, press  to scroll to the name of the style you want to activate. |
| 2 | Press  under SELECT. |

The style immediately becomes active on your phone.

Turning Off a Style

To turn off a style without activating another style:

- | | |
|----------|---|
| 1 | From the Styles Menu screen, press  to scroll to Off . |
| 2 | Press  under SELECT. |

Using the Styles Actions Menu

When you highlight a style on the Styles Menu, you can then access the Styles Actions menu for additional Styles functions.

To access the Styles Actions menu, press  from the Styles menu.

The Styles Actions menu provides the following options:

- **View** — view settings of the highlighted style.
- **Change** — activate the highlighted style.
- **Edit** — edit the settings of the highlighted style.
- **New** — create a new style.
- **Delete** — delete the highlighted style.
- **Delete All** — delete all styles.

Setting Call Filtering

The Call Filter feature enables you to control which calls, messages, and alerts your phone responds to, and which it ignores.

From the Call Filter screen, you set separate filtering options for phone calls, Private and Group calls, alerts, and messages:

- **Phone** — sets filtering options for phone calls.
- **Prvt/Grp** — sets filtering options for Private and Group calls.
- **Alerts** — sets filtering options for call alerts.
- **Notifications** — sets filtering options for messages.

Setting Phone Call Filtering

Call Filter enables you to set your phone responds to all calls, no calls, or only calls from some or all numbers in your Phonebook:

- **Off** sets your phone notify you of all calls.
- **All** sets your phone to ignore all calls.
- **All Phonebook** sets your phone to notify you only of calls from the numbers stored in your Phonebook.
- **Some Phonebook** sets your phone to notify you only of calls from numbers you select from your Phonebook. You may choose up to five Phonebook entries.

To choose Phonebook entries that you want your phone to respond to calls from:

- | | |
|---|---|
| 1 | From the Call Filter screen, press to scroll Phone: . |
| 2 | Press under CHANGE . |
| 3 | Press to scroll Some Phonebook . |
| 4 | Press under SELECT . The entries stored in your Phonebook appear. |
| 5 | To select a Phonebook entry as one you want to your phone to respond to calls from, press to scroll the Phonebook entry and press under SELECT . |
| <p>A check mark appears next to each selected Phonebook entry. You may select up to five Phonebook entries.</p> | |
| 6 | To remove a selected Phonebook entry from the list, press to scroll the name and press under SELECT . |
| 7 | When you have selected the Phonebook entries you want, press under DONE . |

Setting Private and Group Call Filtering

Setting **Prvt/Grp** to **On** sets your phone to ignore all Private and Group calls. Setting **Prvt/Grp** to **Off** sets your phone to respond to all Private and Group calls.

Setting Alert Filtering

Setting **Alerts** to **On** sets your phone to ignore all call alerts. Setting **Alerts** to **Off** sets your phone to respond to all call alerts.

Setting Message Notification Filtering

Call Filter enables you to set your phone to notify you of some types of messages, all types of messages, or no messages:

- **Off** allows your phone to notify you of all messages.
- **Voice Messages** allows your phone to notify you of Voice Mail messages.

- **Text Messages** allows your phone to notify you of Text Messages messages.
- **All** prevents your phone from notifying you of all messages.

Call Filter can prevent your phone from ringing or vibrating when you receive a message. Your display screen will still indicate that you have messages.

Shortcuts

The Shortcuts feature enables you to access most menu or submenu options in your phone by pressing a numeric button on the keypad or speaking a voice name for the shortcut. You create the shortcut to the menu by assigning a number to it and then access the menu by pressing the number. Some shortcuts may already be pre-programmed into your phone. You can have a total of up to 20 shortcuts.

Creating a Shortcut

- 1 Navigate to the menu item to which you want to create a shortcut. For example, if you wanted to create a shortcut to **Ring/Vibe**:

From the idle screen, press , then press  to scroll to **Settings**. Press  under SELECT. **Ring/Vibe** is now highlighted in the **Settings** screen.

- 2 Press and hold  for about 2 seconds.

- 3 A confirmation screen displays showing the name of the menu item to which you want to create a shortcut. To proceed with assigning the shortcut, press  under YES.

- 4 A screen displays showing the assigned shortcut number.

If you want to change the shortcut number:

Press  under CHANGE.

Press  under DELETE to erase the assigned number.

Enter the desired number on your keypad and press  under OK.

- 5** If you want to record a voice name for that shortcut:

Press  to highlight the **Voice:** field.

Press  under RECORD.

As directed by the screen prompts, say and repeat the name you want to assign to the shortcut. Speak clearly into the microphone.

An  icon appears in the **Voice:** field indicating that the voice name has been recorded.

USER TIP:For best results, record in a quiet environment.

- 6** Press  under DONE.

Using a Shortcut

To use a shortcut to access a menu:

- 1** From the idle screen, press .

- 2** Press the number assigned to the shortcut. You have 2 seconds to do this after pressing .

Or,

- 1** From the idle screen, press .

- 2** Press  to scroll to **Shortcuts**.

- 3** Press  under SELECT.

- 4** Press  to scroll to the shortcut you want to use.

- 5** Press  under GOTO.

Or, if you have assigned the shortcut a voice name:

- 1 From the idle screen, press and hold  on the side of your phone until the **Say Name Now** screen appears.
- 2 Say the voice name assigned to the shortcut into your phone's microphone.

Your phone will play the voice name back to you.

Using the Shortcut Menu

The Shortcut Menu enables you to manage your shortcuts with the following options.

- **New** — view instructions for assigning a shortcut.
- **Edit** — edit a shortcut name and key number.
- **Reorder** — assign existing shortcuts to a different key number.
- **Delete** — delete any highlighted Shortcut.
- **Delete All** — delete all stored Shortcuts.

To access the **Shortcut** menu:

- 1 From the idle screen, press .
- 2 Press  to scroll to **Shortcuts**.
- 3 Press  under SELECT.
- 4 Press .

Accessories

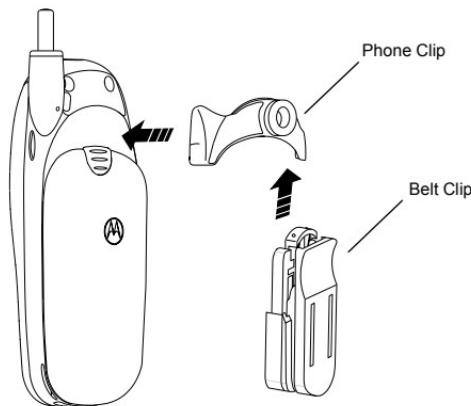

To order additional accessories, log on to our Web site at nextel.com, call Nextel NextdaySM Accessories at 1-800-914-3240 or contact your Nextel Authorized Retailer or Authorized Representative.

This section includes information the following accessories included with your phone:

Swivel Carry Clip	Page 159
Batteries	Page 161
Travel Chargers	Page 162

Swivel Carry Clip

The Swivel Carry Clip provides a convenient means by which to carry your *i85s* phone with you. It consists of the Phone Clip and the Belt Clip.

Using the Swivel Carry Clip

- 1 Attach the Phone Clip to the phone.

USER TIP: Start with the antenna side of the clip.

- 2 Slide the Belt Clip onto the Phone Clip until you hear it click.
- 3 Attach the Swivel Carry Clip (Phone Clip and Belt Clip) to your belt.
- 4 To release phone from belt clip, push the button on the top of the belt clip.

Removing the Swivel Carry Clip

- 1 Hold the phone securely in your left hand.

- 2 Curl the right hand index finger and place the outer edge of the finger against the knob of the Phone Clip.
- 3 Place the thumb of your right hand on the side of the phone, directly below the left side of the Phone Clip.

- | | |
|----------|--|
| 4 | Squeeze the right hand thumb and index finger together until the clip snaps out of the retaining slot on the left side |
| 5 | Remove the clip. |

Batteries

For best results, charge the batteries within the temperature range of 10°C to 40°C (50°F to 104°F).

Prolonged charging is not recommended. For battery charging guidelines, see Table below.

Charging Lithium Ion Batteries

Table 1 provides the approximate time to fully charge a battery using a Motorola iDEN Approved Lithium Ion battery charger. Check the kit number on your battery and charger to determine the appropriate charging time.

Table 1: Battery Charging Times

MOTOROLA BATTERIES		Charging Time to 100%	
Kit Number	Description/ Chemistry	Rapid Charger (SPN4716)	Mid-Rate Charger (SPN4940) or (SPN4808)
SNN5705	High Performance Li Ion	2 hours 30 minutes	5 hours
SNN5716	Maximum Capacity Li Ion	3 hours	8 hours

NOTE: Charging times are based on a fully discharged battery.

For optimal battery life, use a Motorola iDEN Approved Lithium Ion battery charger with your Motorola iDEN Lithium Ion battery. Other chargers may not fully charge your Lithium Ion battery.

Battery Operating Instructions

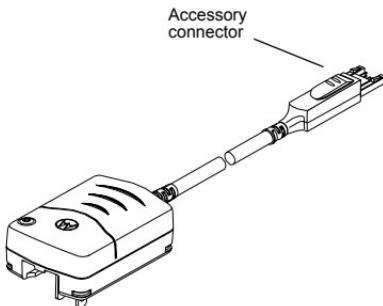

- Extreme temperatures will degrade battery performance. Do not store your battery where temperatures exceed 60°C (140°F) or fall below -20°C (4°F).
- Lithium Ion batteries have a self discharge rate and without use, will lose about 1% of its charge per day.
- The battery capacity will be degraded if stored for long periods while fully charged. If long term storage is required, store at half capacity.
- The Motorola iDEN Approved Lithium Ion chargers will provide optimum performance. Other chargers may not fully charge your iDEN Lithium Ion battery or may yield reduced number of lifetime charge cycles.
- When batteries are not in use, always store them in the plastic safety tray.

Travel Chargers

Using one of the Travel Chargers listed below, you can charge a battery from an AC outlet. On one end of the Travel Charger, an accessory connector attaches to the bottom of the phone. At the other (AC outlet) end of the device, there is a compact housing that contains the plug-in power supply.

TRAVEL CHARGERS	
Kit Number	Description
SPN4940	Mid-Rate Multi-Voltage Travel Charger
SPN4716	Rapid Multi-Voltage Travel Charger
SPN4808	Mid-Rate Economy Travel Charger

NOTE: Additional adaptor plugs to accommodate various International power outlets can be purchased separately for the multi-voltage Travel Chargers.

Using the Travel Charger

- 1** While holding the phone with its keypad facing up, insert the accessory connector into the bottom of the phone until you hear a click.
- 2** If you have either the Mid-Rate Multi-Voltage Travel Charger or the Rapid Multi-Voltage Travel Charger, flip open the prongs, and plug the Travel Charger transformer into an AC wall outlet.

Or

If you have the Mid-Rate Economy Travel Charger, plug the Travel Charger transformer into an AC wall outlet.

Multi-Voltage Travel Charger Operating Specifications

Input voltage range: 90-264 VAC @ 50/60 Hz.

Operating temperature range: 0°C to +50°C

Economy Travel Charger (U.S. Only)

Input voltage range: 90-120 VAC @60Hz.

Operating temperature range: 0°C to +50°C

For information on additional accessories for your *i85s* phone, visit our Web site at nextel.com, call Nextel Nextday Accessories at 1-800-914-3240 to receive a catalog, or see your Nextel Authorized Retailer or Authorized Representative.

Nextel Customer Care

Relax! Nextel Customer Care is here to help. There are lots of features packed into your Nextel service...and into your i85s phone. But don't worry. If, after reading this guide, you still have questions about coverage, billing, Nextel Direct Connect or any other service or feature, call us.

- **Domestic Customer Care:** 1(800) 639-6111 or 611 from your Nextel phone
- **International Roaming Customer Care:** 1(201) 531-5202 (toll free) from your Nextel phone.

We'll be happy to give you help, explanations and anything else you need to enjoy your Nextel service as soon as possible!

Before you call Nextel Customer Care for service or to resolve an issue, be sure to have your Nextel Personal Telephone Number, your model number (located on your phone underneath the battery), and the ID number printed on your SIM card. You'll want to record these numbers, and keep them handy, so that you can replace the battery prior to making your call.

Understanding Status Messages

You may receive status messages under certain conditions. Before contacting Nextel Customer Care at 1-800-639-6111, note the message, numeric code, and the conditions under which it appeared. The following table lists and describes the status messages.

Status Messages	Message Description
Number Not in Service	The number that you entered is not valid.
User Not Available	The phone that you called is either busy, out-of-coverage, or turned off. Please try again later.
User Not Authorized	The person that you called has not purchased this service.
Please Try Later	This service is temporarily not available. Please try again later.
User Busy in Private	The phone that you called is busy in a Private call.
User Busy in Data	The phone that you called is busy in a Dial-Up call.
Service Restricted	This service was restricted by your service provider, or this service was not purchased.
Service Not Available	This feature is not available on the current network.
System Busy Try Later	The system is experiencing heavy traffic. Please try again later.
Service Conflict	This service cannot be enabled because an incompatible service has already been turned on.
Please Try Again	An error occurred. Please try again.
Self Check Error	A fault was detected with your phone. If this error recurs, note the error code and contact Customer Care.

Understanding Status Messages

Status Messages	Message Description
Self Check Fail	An operational fault was detected with your phone. Note the numeric code, turn your phone off, and contact Customer Care.
PIN Blocked Call Your Provider	The incorrect PIN was entered three consecutive times. You will be unable to place or receive calls on your i85s phone. Call Nextel Customer Care to have them obtain the PIN Unblocking Key (PUK) code.
Insert SIM	Your SIM Card is not being detected. Please check to ensure that you have inserted the SIM Card.
Check SIM Card	Please check your SIM Card to make sure it has been inserted properly.
Wrong PIN	You have entered an incorrect PIN number.
Wrong Code	Your phone will not accept a non-Nextel SIM card.

Nextel Terms and Conditions of Service

TERMS AND CONDITIONS OF SERVICE: Before calling the Nextel Customer Care Service Activation number contained in these materials, you ("Customer") must read and agree to the following terms and conditions of Nextel wireless communications services ("Service"). By calling to activate Service, Customer applies and subscribes for Services provided by Nextel (the "Company") and confirms that Customer has read, understands, agrees to and accepts the terms and conditions stated herein (the "Agreement"). Should there be any conflict between the terms and conditions below, and the terms and conditions of any current Service/Subscriber Agreement between Customer and Company covering the phone and accessory equipment (the "Equipment") accompanying this User's Guide, the terms and conditions of the current Service/Subscriber Agreement will control.

1. USE OF SERVICE—By executing this Agreement, Customer acknowledges that it complies with all FCC rules and regulations. Customer will not use the Service for any unlawful purpose. Customer will not use the Service in aircraft. Customer acknowledges and agrees that all future purchases of Company Services and Equipment by customer shall be governed by the terms and conditions contained herein unless Customer and Company enter into a subsequent Service/Subscriber Agreement. Company may change this Agreement at any time. Any changes are effective when Company provides Customer with written notice stating the effective date of the change(s). If Customer elects to use the Services or make any payment to Company on or after the effective date of the changes, Customer is deemed to have accepted the change(s). If Customer does not accept the changes, Customer may terminate Services as of the effective date at the address shown on Customer's bill. If Services are terminated before the end of the current billing cycle, (i) no credit or refund will be provided for unused airtime; and (ii) any monthly recurring charge will not be prorated to the date of termination.

2. CREDIT APPLICATION—This Agreement shall be contingent upon Company's approval of Customer's credit application. Company may require Customer to update its credit application or information from time to time. Customer warrants and represents that all information furnished on the credit application is current, complete, accurate, and true. If Company subsequently determines that any statements made on the credit application are false, incomplete and inaccurate, Company may declare Customer to be in default under this Agreement and may exercise any remedies it has under this Agreement at law or in equity. Customer understands that Company will rely upon the credit information provided by Customer, including but not limited to Customer's social security number or tax identification number, and other confidential and personal financial and credit information requested by Company and supplied by Customer, in making a decision to provide Services. Customer understands that Company may request and verify Customer's bank references and perform a credit history check utilizing standard commercial credit reference services in connection with Company's review of the Customer's credit worthiness. Customer acknowledges that Company may provide payment history and other billing/charge information to a credit reporting agency for inclusion in Customer's records maintained by such credit reporting agency. Customer understands that a security deposit or airtime usage limit may be required.

3. CUSTOMER RADIO EQUIPMENT—Company is not responsible for the installation, operation, quality of transmission, or maintenance of the Equipment. Any change in Service or Equipment may require additional programming or Equipment or changes to assigned codes or numbers which may require programming fees. Company reserves the right to change or remove assigned codes and/or numbers when such change is reasonably

necessary in the conduct of its business. Customer does not have any proprietary interest in such codes or numbers. Although Federal and state laws may make it illegal for third parties to listen in on service, complete privacy cannot be guaranteed. Company shall not be liable to Customer or to any third party for any eavesdropping on or interception of communications from Company's System.

4. DEPOSITS—Company has the right, exercisable in its sole discretion at any time or from time to time, to require Customer to make a deposit to guarantee payment of sums due hereunder, including Service charges. Customer hereby grants Company, as applicable, a security interest in such deposits, to secure the payment of all sums due hereunder as well as the performance of all other payment obligations Customer may have to the Company whether now existing or hereafter rising. Upon termination of Service, Company may apply the deposit against any outstanding Service charges of Customer or any other amount owed to Company. Company reserves the right to interrupt Services if Service appears to have excessive charges, payments are delinquent, or any unusual calling patterns are observed on Customer's account. Such interruption may be done to protect Customer or Company as the Company determines in its sole discretion, but in no event shall the Company be liable to the Customer or to any third party by reason of interrupting or failing to cause an interruption of Service.

5. RATES, CHARGES, AND PAYMENT—Company shall issue invoices for Service. Monthly Access charges shall be invoiced in advance. Airtime and long distance charges shall be invoiced in arrears. Customer is responsible to pay Company, on a timely basis, for charges by Company for Service. Customer acknowledges that chargeable time for telephone calls and Nextel Direct Connect call transmissions originated by a unit begin when a connection is established with Company facilities. A new Nextel Direct Connect call is initiated by a call participant if that participant responds more than six (6) seconds after the other party finishes its Nextel Direct Connect transmission. Customer accepts responsibility for Airtime charges from incoming telephone calls to its mobile unit from the time that Customer responds to the call. If Customer disputes any Service charges, Customer must pay the entire amount set forth in the invoice by the due date and submit a written explanation within forty-five (45) days from the date on the invoice. If Company determines that an error was made on Customer's invoice, Company shall credit Customer's account in the amount of the error. If Customer does not pay the amount in dispute, Company may exercise any remedies it may have under this Agreement for non-payment of Service charges. Company reserves the right to modify any and all elements of the Service charges at any time and each such modification shall be effective immediately upon the Company's communication thereof to Customer, unless the Company's communication indicates a later effective date with respect to such modification.

Payments which are not received within thirty (30) days from the date of the invoice, shall be subject to late payment charges as set forth in this Agreement. If the parties have agreed that payments are to be made in installments, or on credit, Customer shall be responsible for paying amounts due as agreed. If Customer does not make all payments when they are due, such failure shall be a default under this Agreement and Company shall be entitled to exercise any remedies it may have under this Agreement or at law or in equity. If the sale of the Equipment is on a credit or installment basis and the Customer accepts delivery of the Equipment, the Customer may not return the Equipment or receive a refund or any amounts paid and agrees to continue making payments as required under this Agreement until the Equipment sale price is paid in full.

6. NONPAYMENT/BREACH—A late payment charge of 1.5% (or the maximum interest rate permitted by law) per month may be applied to Customer's account if monthly invoices are not paid by the due date. The late payment charge is applied to the total

unpaid balance due and outstanding. The late payment charge is for costs related to the non-timely payment and shall not be deemed an interest payment. A charge of \$25.00 will be made by Company for any check or negotiable instrument tendered by Customer and returned unpaid by a financial institution for any reason. Company may demand payment by money order, cashier's check, or similarly secure form of payment, at Company's discretion at any time or from time to time. If Company obtains the services of a collection or repossession agency or an attorney to assist Company in remedying Customer's breach of this Agreement, including but not limited to the nonpayment for charges hereunder, Customer shall be liable for this expense. Customer understands that in the event of nonpayment of charges or any other breach of the terms and conditions of this Agreement, in addition to any other remedies Company may have, Company may temporarily or permanently terminate Service to Customer. If Service is terminated and not reconnected within 30 days, all outstanding payments to be made in installments are accelerated and immediately due in full. If Company disconnects the Service, Customer shall be liable to satisfy and discharge all outstanding amounts due and pay a reconnect charge of \$25.00 per unit, in addition to any advance payment of Service charges that may be requested by the Company at its discretion, before the Company will reactivate Service. Company reserves the right to modify the terms of Service as a precondition to reactivating Service. If the Equipment is purchased on an installment basis, or credit, the Company may take possession of the Equipment, at any time wherever the same may be without legal process and without being responsible for loss and damage.

7. NEXTEL WIRELESS WEB SERVICES—Nextel Wireless Web Services, consisting of certain applications such as email, data, information and other wireless Internet services (the "Applications") are part of the Services that can be obtained through Company. Certain Applications offered by Company or authorized third parties may be compatible with the Equipment and/or the Service offered by Company. Customer acknowledges and agrees that there is no guarantee or assurance that the Applications are compatible, or will continue to be compatible, with Company's System or any of its Equipment or Service offerings. Such compatibility or approval from Company of compatibility shall not be construed as an endorsement of a particular Application or a commitment on the part of Company that Application(s) will continue to be compatible with the System, Equipment or Service for any period of time. Company reserves the right, in its sole discretion, to disable or discontinue any Application for any reason. Use of Nextel Wireless Web Services requires a wireless Internet compatible phone, and is subject to any storage, memory or other Equipment limitation. Only certain Internet sites may be accessed, and certain Nextel Wireless Web Services may not be available in all Company Service areas.

8. APPLICATION CUSTOMER CARE AND SUPPORT—Customer acknowledges and agrees that in most cases, the developer of an Application is responsible for providing customer care and Application support to all Customers using the Application. In the event Customer contacts Company customer care with a problem concerning the use of an Application, Customer may be referred to the Application developer's customer care, and Company shall have no obligation to support such Application.

9. CONTENT; INTELLECTUAL PROPERTY RIGHTS—Company is not a publisher of third party content that Customer may from time to time access through Nextel Wireless Web Services; therefore Company is not responsible for the content provided by such third parties, including but not limited to statements, opinions, graphics, photos, music, services and other information ("Content"), and accessed by Customer through Nextel Wireless Web Services. Company gives no guarantee or assurance as to the currency, accuracy, completeness or utility of Content obtained through Nextel Wireless Web Services. Company, Content providers and others have proprietary interests in certain

Content. Customer shall not, nor permit others, to reproduce, broadcast, distribute, sell, publish, commercially exploit or otherwise disseminate such Content in any manner without the prior written consent of Company, Content providers, or others with proprietary interests in such Content, as applicable.

10. RISK OF LOSS; INSURANCE—Upon Customer's acceptance of delivery of the Equipment, all risk of loss, damage, theft, or destruction to the Equipment shall be borne by the Customer. No such loss, damage, theft, or destruction of the Equipment, in whole or part, shall impair the obligations of Customer hereunder, including, without limitation, responsibility for the payment of Service Charges due hereunder. If the Equipment is purchased on an installment basis, or on credit, Customer agrees to maintain, for the term of this Agreement, at its own expense, comprehensive public liability and property damage insurance with respect to its use of the Equipment in an amount not less than the replacement value of the Equipment, naming Company as co-insured, with all losses payable to Company. Certificates, evidencing proof of such policy and payment of premiums, shall be delivered to Company prior to delivery or installment of the Equipment. Customer shall prepay such premiums as required and shall furnish Company with proof of such payment at the beginning of the Payment Term and upon the expiration of any Certificate. Any and all amounts received by the Company under any such policy shall be applied by Company against the amount of the Equipment Sales Price and any related charges or fees secured hereby. Failure to provide or maintain the insurance required above is a breach of the Agreement for which the Company shall be entitled to exercise any remedies it may have under this Agreement.

11. PROPERTY DAMAGE INSURANCE—If Customer selects Direct Protect insurance protection, Company will remit the monthly charge for the insurance which appears on Customer's bill to The Signal Telecommunications Insurance Services ("Signal") on Customer's behalf. Customer acknowledges that insurance protection is offered by the Signal, not Company, and that any requests for information or claims regarding the insurance shall be directed to Signal. Customer acknowledges having received a summary of coverage, including deductible information, which is also available by calling Signal at 1-888-352-9182.

12. TAXES, FEES, SURCHARGES & ASSESSMENTS—Customer is responsible for all federal, state, and local taxes, fees, surcharges, and other assessments (collectively, "charges") that are imposed on telecommunications services, other services, and equipment or that are measured by gross receipts from the sale of telecommunication services and/or equipment. Such charges shall include, but are not limited to: excise taxes; sales and transaction taxes; utility taxes; regulatory fees and assessments; universal service assessments, telephone relay service (TRS) assessments; etc. Customer shall be responsible for such charges regardless of whether the charge is imposed upon the sale of equipment or services, upon Customer, or upon Company. If any such charge is determined to be applicable and has not been paid by Customer before Customer accepts delivery of equipment, Customer shall pay Company the full amount of any such charge no later than ten (10) days after receipt of the invoice therefor.

13. COVERAGE AREA—Local Dispatch (Direct Connect), cellular calling, Nextel Wireless Web Services, and respective coverage areas for these Services are subject to change at any time at the sole discretion of Company.

14. LIMITATION AND CONDITION OF LIABILITY; INDEMNITY—Company does not assume and shall have no liability under the Agreement for (i) failure to deliver the Equipment within a specified time period; (ii) availability and delays in delivery of the Equipment; (iii) damage caused to the Equipment due directly or indirectly to causes

beyond the control of Company, including, but not limited to acts of God, acts of the public enemy, acts of the government, acts or failure to act of the Customer, its agents, employees or subcontractors, fires, floods, epidemics, quarantine restrictions, corrosive substances in the air or other hazardous environmental conditions, strikes, freight embargoes, inability to obtain materials or services, commotion, war, unusually severe weather conditions or default of Company's subcontractors whether or not due to any such causes; or (iv) the use of Nextel Wireless Web Services, including but not limited to the accuracy or utility of any information acquired from the Internet through Nextel Wireless Web Services; or Internet Services, Content or Applications whether or not supported by Company. Without limiting the foregoing, the Company's sole liability for Service disruption, whether caused by the negligence of the Company or otherwise, is limited to a credit allowance not exceeding an amount equal to the proportionate charge to the Customer for the period of Service disruption. EXCEPT AS OTHERWISE SET FORTH IN THE PRECEDING SENTENCE, IN NO EVENT IS THE COMPANY LIABLE FOR ACTUAL, CONSEQUENTIAL, INCIDENTAL, SPECIAL OR OTHER INDIRECT DAMAGES CAUSED BY ITS NEGLIGENCE OR OTHERWISE, NOR FOR ECONOMIC LOSS, PERSONAL INJURIES OR PROPERTY DAMAGES SUSTAINED BY THE CUSTOMER OR ANY THIRD PARTIES. Customer agrees to indemnify, defend, and hold Company harmless from any Customer violations of FCC rules and regulations or Customer violation of any statutes, ordinances or laws of any local, state, or federal public authority.

15. COMPLETE AGREEMENT/SEVERABILITY/WAIVER—This Agreement sets forth all of the agreements between the parties concerning the Service and purchase of the Equipment, and there are no oral or written agreements between them other than as set forth in this Agreement. No amendment or addition to this Agreement shall be binding upon this Company unless it is in writing and signed by both parties (and, in the case of the Company, by an officer of the Company). Company shall not be bound by the terms and conditions in Customer's purchase order or elsewhere, unless expressly agreed to in writing by an officer of the Company. This Agreement becomes effective when accepted by the Company. Should any provision of this Agreement be illegal or in contravention of the law, such provision shall be considered null and void but the remainder of this Agreement shall not be affected thereby. The failure of Company at any time to require the performance by Customer of the provisions of this Agreement shall not affect in any way the right to require such performances at any later time nor shall the waiver by Company of a breach of any provision hereof be taken or held to be a waiver of compliance with or breach of any other provision or a continuing waiver of such provision.

16. ASSIGNMENT/RESALE/GOVERNING LAW—This Agreement may be freely assigned by Company to any successor of it or any other firm or entity capable of performing its obligations hereunder, and upon any such assignment, Company shall be released from all obligations to Customer. Customer may not assign this Agreement, or resell the services which are subject to this Agreement without prior written consent of Company. Subject to the restrictions contained herein, this Agreement shall bind and inure to the benefit of the successors and permitted assigns of the parties hereto. This Agreement shall be governed by the laws of the State or Commonwealth in which this Agreement is executed by the Company.

17. NOTICE REGARDING USE OF SERVICE FOR 911 OR OTHER EMERGENCY CALLS—The Service provided hereunder does not interact with 911 and other emergency services in the same manner as landline telephone service. Depending on the circumstances of a particular call, the Service provided hereunder may not be able to

identify your location to emergency services and you may not always be connected to the appropriate emergency services provider. Additionally, the provision of 911 or other emergency services may be conditioned on payment of amounts to the governmental authorities who implement or coordinate access to such services, and Customer agrees that Company may apportion and pass through such amounts to Customer, which shall be paid by Customer when due, in connection with Customer's access to such 911 or other emergency services, where available. CUSTOMER AGREES TO HOLD COMPANY HARMLESS AGAINST ANY AND ALL CLAIMS, DEMANDS, ACTIONS, OR CAUSES OF ACTION (INCLUDING ALL ACTIONS BY THIRD PARTIES) ARISING OUT OF THE USE OR ATTEMPTED USE OF THE COMPANY'S SERVICE TO ACCESS 911 OR OTHER EMERGENCY SERVICES.

18. NO WARRANTY (SERVICE)—COMPANY MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE TO CUSTOMER IN CONNECTION WITH ITS USE OF THE SERVICE. IN NO EVENT SHALL COMPANY BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL OR OTHER INDIRECT DAMAGES TO THE FULL EXTENT THE SAME MAY BE DISCLAIMED BY LAW. CUSTOMER ACKNOWLEDGES THAT SERVICE INTERRUPTIONS WILL OCCUR FROM TIME TO TIME, AND AGREES TO HOLD COMPANY HARMLESS FOR ALL SUCH INTERRUPTIONS.

19. NO WARRANTY (EQUIPMENT)—COMPANY MAKES NO WARRANTIES OR REPRESENTATIONS OF ANY KIND, STATUTORY, EXPRESS OR IMPLIED, TO CUSTOMER OR TO ANY OTHER PURCHASER OF THIS EQUIPMENT. WITHOUT LIMITING THE FOREGOING, COMPANY SPECIFICALLY MAKES NO EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. CUSTOMER HEREBY WAIVES, AS AGAINST COMPANY, ALL OTHER WARRANTIES, GUARANTEES, CONDITIONS, OR LIABILITIES, EXPRESS OR IMPLIED, ARISING BY LAW OR OTHERWISE. IN NO EVENT SHALL COMPANY BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INCIDENTAL DAMAGES, WHETHER OR NOT OCCASIONED BY COMPANY NEGLIGENCE AND INCLUDING, WITHOUT LIMITATION, LIABILITY FOR ANY LOSS OR DAMAGE RESULTING FROM THE INTERRUPTION OR FAILURE IN THE OPERATION OF ANY EQUIPMENT SOLD OR OTHERWISE PROVIDED HEREUNDER. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION CONTAINED HEREIN. CUSTOMER ASSUMES THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE EQUIPMENT. UNLESS OTHERWISE AGREED BY COMPANY, IF THE EQUIPMENT PROVES DEFECTIVE, THE COSTS OF ALL NECESSARY SERVICING AND REPAIR WILL BE BORNE BY CUSTOMER.

20. CERTAIN TERMS AND CONDITIONS REGARDING NEXTEL BUSINESS NETWORKS—There is no Group Call available on the Nextel Business Networks. There is no pooling of Nextel Direct Connect minutes between companies on the Nextel Business Networks. It is possible that participants on the Nextel Business Network could determine the private identification numbers of Customer's units and be able to Private Call those units. It is also possible that users of Customer's units could determine the private identification numbers of other Nextel Business Network participants and Private Call them.

Safety and General Information

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION.

READ THIS INFORMATION BEFORE USING YOUR INTEGRATED MULTI-SERVICE PORTABLE RADIO.

RF Operational Characteristics

Your radio product contains a radio frequency transmitter to convey the information you wish to send as well as occasional automatic signals used to sustain connection to the wireless network, and a receiver which enables you to receive communication and connection information from the network.

PORTABLE RADIO PRODUCT OPERATION AND EME EXPOSURE

Your Motorola radio product is designed to comply with the following national and international standards and guidelines regarding exposure of human beings to radio frequency electromagnetic energy (EME):

- United States Federal Communications Commission, Code of Federal Regulations; 47 CFR part 2 sub-part J
- American National Standards Institute (ANSI) / Institute of Electrical and Electronics Engineers (IEEE). C95. 1-1992
- Institute of Electrical and Electronics Engineers (IEEE). C95. 1-1999 Edition
- National Council on Radiation Protection and Measurements (NCRP) of the United States, Report 86, 1986
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1998
- Ministry of Health (Canada). Safety Code 6. Limits of Human Exposure to Radiofrequency Electromagnetic Fields in the Frequency Range from 3 kHz to 300 GHz, 1999.
- Australian Communications Authority Radiocommunications (Electromagnetic Radiation - Human Exposure) Standard 1999 (applicable to wireless phones only)

To assure optimal radio product performance and make sure human exposure to radio frequency electromagnetic energy is within the guidelines set forth in the above standards, always adhere to the following procedures:

Phone Operation

When placing or receiving a phone call, hold your radio product as you would a wireline telephone. **Speak directly into the microphone.**

Two-way radio operation

When using your radio product as a traditional two-way radio, **hold the radio product in a vertical position with the microphone one to two inches (2.5 to 5 cm) away from the lips.**

Body-worn operation

To maintain compliance with FCC RF exposure guidelines, if you wear a radio product on your body when transmitting, always place the radio product in a **Motorola approved clip, holder, holster, case or body harness for this product.** Use of non-Motorola-approved accessories may exceed FCC RF exposure guidelines. **If you do not use a Motorola approved body-worn accessory and are not using the radio product in the intended use positions along side of the head in the phone mode or in front of the face in the two-way radio mode, then ensure the antenna and the radio product is kept the following minimum distances from the body when transmitting:**

- **Phone or Two-way radio mode: one inch (2.5 cm)**
- **Data operation using any data feature with or without an accessory cable: one inch (2.5 cm)**

Antenna Care

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the radio product and may violate FCC regulations.

DO NOT hold the antenna when the radio product is “IN USE”. Holding the antenna affects call quality and may cause the radio product to operate at a higher power level than needed.

Approved Accessories

For a list of approved Motorola accessories call 1-800-453-0920 / visit our website at www.mot.com/iden / look in the accessory section of this manual.

THIS MODEL PHONE MEETS THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg.* Tests for SAR are conducted using standard operating positions reviewed by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

Before a phone model is available for sale to the public, it must be tested and certified to the FCC that is does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model phone when tested for use at the ear is 1.36 W/kg and when tested on the body, as described in this user guide, is 0.46 W/kg during voice transmission using Phone Mode and 1.00 W/kg during packet data transmission. (Body-worn measurements differ among phone models, depending upon available accessories and FCC requirements.) While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement for safe exposure.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/fccid> after searching on FCC ID AZ489FT5799.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications Industry Association (CTIA) web-site at <http://www.wow-com.com>.

* In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

Electro Magnetic Interference/Compatibility

NOTE: Nearly every electronic device is susceptible to electromagnetic interference (EMI) if inadequately shielded, designed or otherwise configured for electromagnetic compatibility.

Facilities

To avoid electromagnetic interference and/or compatibility conflicts, turn off your radio product in any facility where posted notices instruct you to do so. Hospitals or health care facilities may be using equipment that is sensitive to external RF energy.

Aircraft

When instructed to do so, turn off your radio product when on board an aircraft. Any use of a radio product must be in accordance with applicable regulations per airline crew instructions.

Medical Devices

Pacemakers

The Health Industry Manufacturers Association recommends that a minimum separation of 6 inches (15 cm) be maintained between a handheld wireless radio product and a pacemaker. These recommendations are consistent with those of the U.S. Food and Drug Administration.

Persons with pacemakers should:

- ALWAYS keep the radio product more than 6 inches (15 cm) from their pacemaker when the radio product is turned ON.
- Not carry the radio product in a breast pocket.
- Use the ear opposite the pacemaker to minimize the potential for interference.
- Turn the radio product OFF immediately if you have any reason to suspect that interference is taking place.

Hearing Aids

Some digital wireless radio products may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

Other Medical Devices

If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your physician may be able to assist you in obtaining this information.

Use While Driving

Check the laws and regulations on the use of radio products in the area where you drive. Always obey them.

When using the radio product while driving, please:

- Give full attention to driving and to the road.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

WARNING

Operational Warnings

For Vehicles with an Air Bag

Do not place a portable radio product in the area over the air bag or in the air bag deployment area. Air bags inflate with great force. If a portable radio is placed in the air bag deployment area and the air bag inflates, the radio product may be propelled with great force and cause serious injury to occupants of the vehicle.

Potentially Explosive Atmospheres

Turn off your radio product prior to entering any area with a potentially explosive atmosphere, unless it is a radio product type especially qualified for use in such areas as "Intrinsically Safe" (for example, Factory Mutual, CSA, or UL approved). Do not remove, install, or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.

NOTE: The areas with potentially explosive atmospheres referred to above include fueling areas such as below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust or metal powders, and any other area where you would normally be advised to turn off your vehicle engine. Areas with potentially explosive atmospheres are often but not always posted.

Blasting Caps and Areas

To avoid possible interference with blasting operations, turn off your radio product when you are near electrical blasting caps, in a blasting area, or in areas posted: "Turn off two-way radio". Obey all signs and instructions.

Caution

Operational Cautions

Antennas

Do not use any portable radio product that has a damaged antenna. If a damaged antenna comes into contact with your skin, a minor burn can result.

Batteries

All batteries can cause property damage and/or bodily injury, such as burns if a conductive material such as jewelry, keys, or beaded chains touches exposed terminals. The conductive material may complete an electrical circuit (short circuit) and become quite hot. Exercise care in handling any charged battery, particularly when placing it inside a pocket, purse, or other container with metal objects.

Cleaning and Drying Considerations

Using a leather carry case may help protect the surfaces and help prevent liquids (e.g., rain) from entering into the interior of the radio product. This product is not water proof, and exposing the unit to liquids may result in permanent damage to the unit.

If your radio product interior gets wet, then do not try to accelerate drying with the use of an oven or a dryer as this will damage the radio product and void the warranty. Instead, do the following:

1. Immediately power off the radio product.
2. Remove Battery and SIM card (if so equipped) from radio product.
3. Shake excess liquid from radio product.
4. Place the radio product and battery in an area that is at room temperature and has good air flow.

5. Let the radio product, battery dry, and SIM card for 72 hours before reconnecting the battery and/or powering on the radio product.

If the radio product does not work after following the steps listed above, contact your dealer for servicing information.

Clean the external surfaces of the radio product with a damp cloth, using a mild solution of dishwashing detergent and water. Some household cleaners may contain chemicals that could seriously damage the radio product. Avoid the use of any petroleum-based solvent cleaners. Also, avoid applying liquids directly on the radio product.

Accessory Safety Information

IMPORTANT:

SAVE THESE ACCESSORY SAFETY INSTRUCTIONS

- Before using any battery or battery charger, read all the instructions for and cautionary markings on (1) the battery, (2) the battery charger, which may include a separate wall-mounted power supply or transformer, and (3) the radio product using the battery.
- Do not expose any battery charger to water, rain, or snow as they are designed for indoor or in-vehicle use only.

 WARNING	To reduce the risk of injury, charge only the rechargeable batteries listed in the Accessories section of this manual. Other types of batteries may burst, causing personal injury and damage.
---	--

- To reduce the risk of damage to the cord or plug, pull by the plug rather than the cord when you disconnect the battery charger from the power source outlet.
- Do not operate any battery charger with a damaged cord or plug — replace them immediately.
- Battery chargers may become warm during operation, but not hot. If it becomes hot to the touch, unplug it from the power outlet immediately and discontinue its use.
- Use of a non-recommended attachment to a battery charger may result in a risk of fire, electric shock, or injury to persons.
- Make sure the battery charger power cord is located so that it will not be stepped on, tripped over, or subjected to damage or stress.
- An extension cord should not be used with any battery charger unless absolutely necessary. Use of an improper extension cord could result in a risk of fire and electric shock. If an extension cord must be used, make sure that:
 - The pins on the plug of the extension cord are the same number, size, and shape as those on the plug of the charger.
 - The extension cord is properly wired and in good electrical condition.
 - The cord size is 18AWG for lengths up to 100 feet and 16AWG for lengths up to 150 feet.

- Do not operate any battery charger if it has received a sharp blow, has been dropped, or has been damaged in any way; take it to a qualified service technician.
- Do not disassemble a battery charger; take it to a qualified service technician when service or repair is required. Incorrect reassembly may result in a risk of electric shock or fire.
- Maximum ambient temperature around the power supply or transformer of any battery charger should not exceed 40°C (104°F).
- The output power from the power supply or transformer must not exceed the rating given on the Desktop Dual-Pocket Charger.
- The disconnection from the line voltage is made by unplugging the power supply from the AC receptacle.
- To reduce risk of electric shock, unplug any battery charger from the outlet before attempting any maintenance or cleaning.

For optimum charging performance, turn off the radio product while charging it in any battery charger.

Limited Warranty Motorola Communication Products

NOTE :

This Warranty applies within the fifty (50) united states and the District of Columbia

I. WHAT THIS WARRANTY COVERS AND FOR HOW LONG:

MOTOROLA, INC. ("MOTOROLA") warrants the MOTOROLA manufactured iDEN Communication Products listed below ("Product") against defects in material and workmanship under normal use and service for a period of time from the date of purchase as scheduled below:

iDEN Subscriber Digital Mobile and Portable Units	One (1) Year
Product Accessories	One (1) Year
Batteries	One (1) Year

Rechargeable Batteries will be replaced during the applicable warranty period if:

- a. the battery capacity falls below 80% of rated capacity, or
- b. the battery develops leakage.

MOTOROLA, at its option, will at no charge either repair the Product (with new or reconditioned parts), replace it (with a new or reconditioned Product), or refund the purchase price of the Product during the warranty period provided it is returned in accordance with the terms of this warranty. Replaced parts or boards are warranted for the balance of the original applicable warranty period. All replaced parts of Product shall become the property of MOTOROLA.

This express limited warranty is extended by MOTOROLA to the original end user purchaser only and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by MOTOROLA.

MOTOROLA assumes no obligations or liability for additions or modifications

to this warranty unless made in writing and signed by an officer of MOTOROLA. Unless made in a separate agreement between MOTOROLA and the original end user purchaser, MOTOROLA does not warrant the installation, maintenance or service of the Product.

MOTOROLA cannot be responsible in any way for any ancillary equipment not furnished by MOTOROLA which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment if expressly excluded from this warranty. Because each system which may use the Product is unique, MOTOROLA disclaims liability for range, coverage, or operation of the system as a whole under this warranty.

II. GENERAL PROVISIONS:

This warranty sets forth the full extent of MOTOROLA'S responsibilities regarding the Product, Repair, replacement or refund of the purchase price, at MOTOROLA'S options, is the exclusive remedy. THIS WARRANTY IS GIVEN IN LIEU OF ALL OTHER EXPRESS WARRANTIES. IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL MOTOROLA BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, FOR ANY LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS OR SAVINGS OR OTHER INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE SUCH PRODUCT, TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW.

III. STATE LAW RIGHTS:

SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATION ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY.

This warranty gives specific legal rights, and there may be other rights which may vary from state to state.

IV. HOW TO GET WARRANTY SERVICE:

You must provide proof of purchase (bearing the date of purchase and Product item serial number) in order to receive warranty service and, also, deliver or send the Product item, transportation and insurance prepaid, to an authorized warranty service location. Warranty service will be provided by MOTOROLA through one of its authorized warranty service locations. If you first contact the company which sold you the Product (e.g., dealer or communication service provider), it can facilitate your obtaining warranty service. You can also call MOTOROLA at 1-800-453-0920 for warranty service location information.

V. WHAT THIS WARRANTY DOES NOT COVER:

- a. Defects or damage resulting from use of the Product in other than its normal and customary manner.
- b. Defects or damage from misuse, accident, water, or neglect.
- c. Defects or damage from improper testing, operation, maintenance, installation, alteration, modification, or adjustment.
- d. Breakage or damage to antennas unless caused directly by defects in material workmanship.
- e. A Product subjected to unauthorized Product modifications, disassemblies or repairs (including, without limitation, the audition to the Product of non-MOTOROLA supplied equipment) which adversely affect performance of the Product or interfere with MOTOROLA'S normal warranty inspection and testing of the Product to verify any warranty claim.
- f. Product which has had the serial number removed or made illegible.
- g. Rechargeable batteries if:
 - 1. Any of the seals on the battery enclosure of cells are broken or show evidence of tampering.
 - 2. The damage or defect is caused by charging or using the battery in equipment or service other than the Product for which it is specified.
- c. Freight costs to the repair depot.
- d. A Product which, due to illegal or unauthorized alteration of the software/firmware in the Product, does not function in accordance with MOTOROLA'S published specifications or the FCC type acceptance labeling in effect for the Product at the time the Product was initially distributed from MOTOROLA.
- e. Scratches or other cosmetic damage to Product surfaces that does not effect the operation of the Product.
- f. Normal and customary wear and tear.

VI. PATENT AND SOFTWARE PROVISIONS:

MOTOROLA will defend, at its own expense, any suit brought against the end user purchaser to the extent that it is based on a claim that the Product or parts infringe a United States patent, and Motorola will pay those costs and damages finally awarded against the end user purchaser in any such suit which are attributable to any such claim, but such defense and payments are conditioned on the following:

- a. That MOTOROLA will be notified promptly in writing by such purchaser of any notice of such claim;
- b. That MOTOROLA will have sole control of the defense of such suit and all negotiations for its settlement or compromise; and
- c. Should the Product or parts become, or in MOTOROLA'S opinion be likely to become, the subject of a claim of infringement of a United States patent, that such purchaser will permit MOTOROLA, at its option and expense, either to procure for such purchaser the right to continue using the Product or parts or to replace or modify the same so that it becomes non-infringing or to grant such purchaser a credit for the Product or parts as depreciated and accept its return. The depreciation will be an equal amount per year over the lifetime of the Product or parts as established by MOTOROLA.

MOTOROLA will have no liability with respect to any claim of patent infringement which is based upon the combination of the Product or parts furnished hereunder with software, apparatus or devices not furnished by MOTOROLA, nor will MOTOROLA have any liability for the use of ancillary equipment or software not furnished by MOTOROLA which is attached to or used in connection with the Product or any parts thereof.

Laws in the United States and other countries preserve for MOTOROLA certain exclusive rights for copyrighted MOTOROLA software, such as the exclusive rights to reproduce in copies and distribute copies of such MOTOROLA software. MOTOROLA software may be used in only the Product in which the software was originally embodied and such software in such Product may not be replaced, copied, distributed, modified in any way, or used to produce any derivative thereof. No other use including, without limitation, alteration, modification, reproduction, distribution, or reverse engineering of such MOTOROLA software or exercise or rights in such MOTOROLA software is permitted. No license is granted by implication, estoppel or otherwise under MOTOROLA patent rights or copyrights.

Limited Warranty Motorola Communication Products (International)

NOTE :

This Warranty applies in Singapore and the Philippines.

I. WHAT THIS WARRANTY COVERS AND FOR HOW LONG:

MOTOROLA warrants the MOTOROLA manufactured iDEN Communication Products listed below ("Product") against defects in material and workmanship under normal use and service for a period of time from the date of purchase as scheduled below:

iDEN Subscriber Digital Mobile and Portable Units	One (1) Year
Product Accessories (manufactured by or under license from MOTOROLA)	One (1) Year
Batteries	One (1) Year

Rechargeable Batteries will be replaced during the applicable warranty period if:

- a. the battery capacity falls below 80% of rated capacity, or
- b. the battery develops leakage.

MOTOROLA, at its option, will at no charge either repair the Product (with new or reconditioned parts), replace it (with a new or reconditioned Product), or refund the purchase price of the Product during the warranty period provided it is returned in accordance with the terms of this warranty. Replaced parts or boards are warranted for the balance of the original applicable warranty period. All replaced parts of Product shall become the property of MOTOROLA.

This express limited warranty is extended by MOTOROLA to the original end user purchaser only and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by MOTOROLA.

MOTOROLA assumes no obligations or liability for additions or modifications

to this warranty unless made in writing and signed by an officer of MOTOROLA. Unless made in a separate agreement between MOTOROLA and the original end user purchaser, MOTOROLA does not warrant the installation, maintenance or service of the Product.

MOTOROLA cannot be responsible in any way for any ancillary equipment not furnished by MOTOROLA which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment if expressly excluded from this warranty. Because each system which may use the Product is unique, MOTOROLA disclaims liability for range, coverage, or operation of the system as a whole under this warranty.

II. GENERAL PROVISIONS:

This warranty sets forth the full extent of MOTOROLA'S responsibilities regarding the Product, Repair, replacement or refund of the purchase price, at MOTOROLA'S options, is the exclusive remedy. THIS WARRANTY IS GIVEN IN LIEU OF ALL OTHER EXPRESS WARRANTIES. IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW. IN NO EVENT SHALL MOTOROLA BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, FOR ANY LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS OR SAVINGS OR OTHER INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE SUCH PRODUCT, TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW.

III. HOW TO GET WARRANTY SERVICE:

You must provide proof of purchase (bearing the date of purchase and Product item serial number) in order to receive warranty service and, also, deliver or send the Product item, transportation and insurance prepaid, to an authorized warranty service location. Warranty service will be provided by MOTOROLA through one of its authorized warranty service locations. If you first contact the company which sold you the Product (e.g., dealer or communication service provider), it can facilitate your obtaining warranty service.

IV. WHAT THIS WARRANTY DOES NOT COVER:

- a. Defects or damage resulting from use of the Product in other than its normal and customary manner.

-
- b. Defects or damage from misuse, accident, water, or neglect.
 - c. Defects or damage from improper testing, operation, maintenance, installation, alteration, modification, or adjustment.
 - d. Breakage or damage to antennas unless caused directly by defects in material workmanship.
 - e. A Product subjected to unauthorized Product modifications, disassemblies or repairs (including, without limitation, the audition to the Product of non-MOTOROLA supplied equipment).
 - f. Product which has had the serial number removed or made illegible.
 - g. Rechargeable batteries if:
 - 1. Any of the seals on the battery enclosure of cells are broken or show evidence of tampering.
 - 2. The damage or defect is caused by charging or using the battery in equipment or service other than the Product for which it is specified.
 - c. Freight costs to the repair depot.
 - d. A Product which, due to illegal or unauthorized alteration of the software/firmware in the Product, does not function in accordance with MOTOROLA'S published specifications or the local type acceptance labeling in effect for the Product at the time the Product was initially distributed from MOTOROLA.
 - e. Scratches or other cosmetic damage to Product surfaces that does not effect the operation of the Product.
 - f. Normal and customary wear and tear.
 - g. Exclusion for defects or damage arising from use of the products in connection with non-MOTOROLA equipment.

V. PATENT AND SOFTWARE PROVISIONS:

MOTOROLA will defend, at its own expense, any suit brought against the end user purchaser to the extent that it is based on a claim that the Product or parts infringe a patent, and Motorola will pay those costs and damages finally awarded against the end user purchaser in any such suit which are attributable to any such claim, but such defense and payments are conditioned on the following:

- a. That MOTOROLA will be notified promptly in writing by such purchaser of any notice of such claim;
- b. That MOTOROLA will have sole control of the defense of such suit and all negotiations for its settlement or compromise; and
- c. Should the Product or parts become, or in MOTOROLA'S opinion be likely to become, the subject of a claim of infringement of a patent,

that such purchaser will permit MOTOROLA, at its option and expense, either to procure for such purchaser the right to continue using the Product or parts or to replace or modify the same so that it becomes non-infringing or to grant such purchaser a credit for the Product or parts as depreciated and accept its return. The depreciation will be an equal amount per year over the lifetime of the Product or parts as established by MOTOROLA.

MOTOROLA will have no liability with respect to any claim of patent infringement which is based upon the combination of the Product or parts furnished hereunder with software, apparatus or devices not furnished by MOTOROLA, nor will MOTOROLA have any liability for the use of ancillary equipment or software not furnished by MOTOROLA which is attached to or sued in connection with the Product or any parts thereof. In no event shall MOTOROLA be liable for any incidental, special or consequential damages arising from any claim of patent infringement or alleged infringement.

Laws in the United States and other countries preserve for MOTOROLA certain exclusive rights for copyrighted MOTOROLA software, such as the exclusive rights to reproduce in copies and distribute copies of such MOTOROLA software. MOTOROLA software may be used in only the Product in which the software was originally embodied and such software in such Product may not be replaced, copied, distributed, modified in any way, or used to produce any derivative thereof. No other use including, without limitation, alteration, modification, reproduction, distribution, or reverse engineering of such MOTOROLA software or exercise or rights in such MOTOROLA software is permitted. No license is granted by implication, estoppel or otherwise under MOTOROLA patent rights or copyrights.
